## *Purpose of Collection Development Policy*

A school library collection development plan serves as a roadmap to guide library materials' selection, acquisition, and maintenance. It ensures the collection aligns with Florida statutes, the District's Strategic Plan Goals and Guardrails, the school's curriculum, and student needs by providing a framework for choosing resources that best support student learning across different subjects and interests while also addressing diversity and appropriate content levels.

### *A Collection Development Plan Serves Several Important Purposes:*

**Statutory Compliance:** A Collection Development Plan establishes the framework for adhering to the mandatory state statute, requiring each district school board to adopt procedures for developing library media center collections and to post these procedures on each school's website.
**District Alignment:** Aligns with Broward County Public Schools 2022-2027 Strategic Plan Goals and Guardrails.
**Supporting curriculum:** The plan should directly connect library materials to the school's curriculum, ensuring students access relevant study resources.
**Student needs assessment:** It considers students' diverse needs, including reading levels, interests, and learning styles, to select materials that cater to a wide range of abilities.
**Selection criteria:** The plan outlines clear criteria for choosing materials, such as quality, accuracy, relevance, and alignment with school values.
**Budget management:** It helps allocate library funds effectively by prioritizing purchase needs based on identified gaps in the collection.
**Collection maintenance:** The plan includes procedures for discarding outdated or damaged materials and replacing them with current resources.
**Community engagement:** It involves collaboration with students, teachers, administrators, and parents to gather input on collection needs.

A thorough analysis of the current media center collection at Coral Springs High School indicates that the average age of the collection 2012 and the number of books per student is 6.5 The American Library Association has established a criteria for a highly effective media center that includes a ratio of 10 books available per student in the collection.

Currently, Coral Springs HS does not meet the recommended standards for the number of books per student.

***Library Program*** Coral Springs High School Library Learning Commons program is an integral part of the school instructional practice. The program is based upon the belief that all students, teachers, administration, and support staff should have open access to all forms of information relevant to learning and teaching the curriculum. To ensure access to quality library media collections, a systematic collection development plan for assessing and shaping the media collection is ongoing.

The Library Learning Commons is an open media center. Students visit the center daily with classes, on a pass from a class or during student lunches. Reading motivation programs are supported using the district initiative Beanstack, with 3-4 reading motivation programs presented each year. The library shelves are generified in the fiction collection. Monthly genre events take place in the center to support literary genres, reading motivation and student reading interest exploration.

I support the instructional programs of my school through collaboration with teachers and the development of specific resources for students in all content areas. I met with classes for instruction on research skills, the use of digital databases, citation tools, academic resumes, and the research process model. I developed and maintained a Canvas Learning Management Course and webpage which includes tutorials, links to digital resources, digital library collections, i.e., eBooks and audio books, library information, reading motivation programs and library events

## *Collection Development*

Collection Development is the process of providing quality materials and equipment for the library media center. The goal of collection development is to ensure the collection has information sources in adequate quantity and variety to support student's academic and personal interest needs. The media specialist is charged with leading this process with the input of teachers, students, and parents. Resources are selected according to principles of intellectual freedom and provide all learners with access to information representing diverse points of view.

**Selection and Evaluation Criteria (Drawn from BCPS Policy 4120)**

### *Selection of Materials*

Funded by the state, district, and school, the media collection will contain a wide range of appropriate materials on varying levels of difficulty in various existing and emerging formats. It will focus on materials that address different learning styles and levels.

### *Responsibility*

The professionally trained media specialist is responsible for coordinating the selection of instructional materials for the School Media Center, consulting with the principal, teachers, and students.

***In the event there is not a school library media specialist,** the Principal and/or Administrative Designee will assume the responsibility for identifying and selecting an instructional staff member(s) to engage in the selection process to ensure materials support the needs of the school community.

Evaluation of items under consideration for removal from the Library Media Center should be based on criteria related to the educational value of the resources. The removal (weeding) of library materials from the collection is the responsibility of a skilled professional library media specialist. Weeded items should not be disposed of or discarded at the school site. Weeded items should be boxed and identified as DISCARDED or WITHDRAWN and scheduled for pick up by Procurement and Warehousing Services by completing the enclosed Warehouse Assistance Request Form.

## *Library Bill of Rights*

The American Library Association affirms that all libraries are forums for information and ideas, and that the following basic policies should guide their services.

I. Books and other library resources should be provided for the interest, information, and enlightenment of all people of the community the library serves. Materials should not be excluded because of the origin, background, or views of those contributing to their creation.

II. Libraries should provide materials and information presenting all points of view on current and historical issues. Materials should not be proscribed or removed because of partisan or doctrinal disapproval.

III. Libraries should challenge censorship in the fulfillment of their responsibility to provide information and enlightenment.

IV. Libraries should cooperate with all persons and groups concerned with resisting abridgment of free expression and free access to ideas.

V. A person's right to use a library should not be denied or abridged because of origin, age, background, or views.

VI. Libraries which make exhibit spaces and meeting rooms available to the public they serve should make such facilities available on an equitable basis, regardless of the beliefs or affiliations of individuals or groups requesting their use.

VII. All people, regardless of origin, age, background, or views, possess a right to privacy and confidentiality in their library use. Libraries should advocate for, educate about, and protect people's privacy, safeguarding all library use data, including personally identifiable information.

Adopted June 19, 1939, by the ALA Council; amended October 14, 1944; June 18, 1948; February 2, 1961; June 27, 1967; January 23, 1980; January 29, 2019.

Inclusion of "age" reaffirmed January 23, 1996.

Although the Articles of the Library Bill of Rights are unambiguous statements of basic principles that should govern the service of all libraries, questions do arise concerning application of these principles to specific library practices.
