

February 27, 2026

Notice to all Proposers:

The Intent to Award notice dated February 26, 2026, was posted prematurely due to administrative error and is hereby withdrawn.

Following completion of the initial evaluation process for the above-referenced solicitation, the District identified one timely submitted proposal that was inadvertently not evaluated by the evaluation committee. District staff has confirmed that the unevaluated proposal was received prior to the submission deadline and meets the responsiveness requirements outlined in the solicitation to be evaluated. It therefore must be evaluated before any award is issued for this solicitation.

In order to ensure fairness, maintain the integrity of the competitive procurement process, provide equal consideration to all timely and responsive proposers, and meet the required deadline to allow the District to issue a contract on this solicitation, the District must ensure the evaluation process is completed prior to posting the Notice of Intent to Award for this solicitation.

To do so, the evaluation committee will reconvene on Monday, March 2, 2026, at 9:00 AM at 111 Curry St, LaBelle, FL, 33935, to evaluate only the one unevaluated, responsive proposal. The evaluation committee will do so using the same blind scoring process, criteria, and weighting established in the solicitation that governed the evaluation committee's evaluation of all other timely, responsive proposals received. No proposal revisions, pricing changes, or additional submissions are permitted and no previously evaluated proposal will be reevaluated.

Thank you for your understanding and continued participation in this process.

Emily Goderich  
IT Director  
Hendry County School District
