

K-8 SUMMER SCHOOL

Academic Enrichment:

Summer school provides an opportunity for math and reading enrichment, helping students solidify their understanding of key concepts and prepare for the upcoming school year.

Boosting Educational Progress:

Summer school maintains students' engagement, ensuring they gain knowledge and avoid any decline in academic skills over the break.

Skill Development:

Beyond academics, summer school can focus on developing critical skills such as problem-solving, critical thinking, and effective communication.

Enrichment: Summer school offers activities for students to explore and develop their creative abilities from arts to other programs and projects.

9-12 SUMMER SCHOOL

Summer school provides a vital opportunity for students to stay on track for graduation through targeted credit recovery courses. Students may earn **up to two credits total** during the summer – **one credit in June and one credit in July**. These courses use alternative education approaches designed to engage learners and support individual academic needs.

Daily in-person attendance is expected to ensure consistent progress and support from qualified educators.

This focused environment allows students who are currently behind in earning credits toward graduation to catch up and regain confidence in their academic journey.
