PARENT SUMMIT: PRESCHOOLERS ON THEIR WAY!

Unlimited free access to virtual video library on Google Drive

Do you know what students learn in preschool? Do you know how younger students learn the best? How can you help support your child's learning at home? This class will go over all of this and MORE!

Throughout this class, we will be going over the types of skills and goals that we hope to help your child reach in preschool and how you can support this learning at home with your child. We will review different strategies and skills that you can work with your child on at home to help them best prepare

themselves for their learning experience in preschool and beyond. This class will be similar to the Kindergarten Prep class but will be geared towards parents with preschool aged students and focus on activities, development and learning for 3-5 year olds. This class will be beneficial for families with children new to preschool or students who have been in preschool in years prior.

This class will be provided through sectioned video recordings in a google file. **The QR code will bring you to the video recordings** that will be available April 1. This class file will continuously be updated and built upon.

PARENT SUMMIT: KINDERGARTEN PREP

Unlimited free access to virtual video library on Google Drive

Attention all parents of kids starting kindergarten in the Fall! Are you curious about how to help prepare your child for the transition to kindergarten? What do you need to know?

In this online library of recorded videos, and files, you will find a variety of in-depth learning about the skills that help our children succeed in kindergarten. Research shows that social-emotional skills are the most important skills that children can have as they enter their school careers - come learn how these skills can be fostered at home to prepare them for their big year! The strategies, skills, tips and tricks covered at this summit will not only help you prepare your child but will also support creating a strong attachment with your child and support their need for emotional support and social development.

This class is not only for new families to kindergarten but will provide information that will be beneficial to parents of all levels of experience with this transition. Please reach out if you have any questions! **The QR code will bring you to the video recordings that will be available April 1.**

Have you recently moved into the District or had a baby?

If you are new to the community or have changes to your household information, including a birth, please follow this QR code and fill out our google form. This census helps Independent School District 2687 create and maintain programs that better serve the residents of our communities.

EARLY CHILDHOOD SCREENING

The State of Minnesota requires all children attending kindergarten to be screened. HLWW schedules screening for families with young children throughout the school year. Screening at age three is preferred. Screening is most valuable when completed before your child turns four years old.

What is Early Childhood Screening:

Early Childhood Screening is a free and simple check of how your child is growing, developing and learning. At a screening appointment a trained professional will check: vision, hearing, height, weight, immunizations, large/small muscles, thinking, language, communication skills, social and emotional development.

Why Early Childhood Screening Important:

Screening helps identify children who may benefit from early childhood services before they enter school and connects them with appropriate resources and programs. If your child has already been screened, he/she does not need to be screened again.

How Do I Make an Appointment:

Contact the HLWW Screening Coordinator at 320-543-4670 ext 4 or email euter@hlww.k12.mn.us or go online to hlww.ce.eleyo.com

Early Childhood Screening Dates and Location:

We have scheduled and are hosting screening events on

Thursday, July 30
HLWW Middle School Media Center, use upper level Middle School entrance.

September-April dates will be in the HLWW ECFE Classroom E013 (use lower level east side entrance of Middle School).

Dates updated at hlww.ce.eleyo.com as they become available. Search Early Childhood Screening for additional dates.

Help Me Grow

As you watch your child grow, you may become concerned about your child's development. While all young children grow and change at their own rate, sometimes you may have concerns that your child is developing differently than other children the same age as your child. This helps families take the lead in seeking additional support or referring their child for a comprehensive, confidential screening or evaluation at no cost.

If you would like more information about Help Me Grow, email mde.helpmegrow@state.mn.us or call 1-866-693-GROW (4769).

GIRLS ONLY WRESTLING PROGRAM AGES 5-18

Wrestling teaches many life skills including hard work, perseverance, discipline and grit. In this activity, children will be introduced to the sport of wrestling and learn basic techniques of the sport. It is great for building strength, coordination, balance, and endurance. This wrestling opportunity is for girls only.

High School Girls Wrestling was sanctioned in Minnesota in 2021. In 2024, the MSHSL held its third ever Girls' State Wrestling Championships at the Xcel Energy Center. Minnesota had 250 girls participate in wrestling in its first season. There are now over 1,100 girls wrestling in high school across the state of Minnesota. There are a growing number of opportunities for girls to participate in tournaments against other girls. Along with the growth of high school girls wrestling, we have seen a similar explosion in the number of colleges that offer women's wrestling as a collegiate sport. Women's wrestling is the fastest growing women's collegiate sport in the country.

Girls have been wrestling in Minnesota and HLWW for many years. In 2024, HLWW hosted it's first ever Girls Only wrestling practices. Our Youth program has been co-ed for a number of years, but now additional opportunities have been created to help girls get started with the sport of wrestling.

The weekly sessions will collectively end with a co-ed camp on August 11 & 12. If you register for the summer girls' wrestling program, camp registration is free! Must register prior to July 10 to receive a t-shirt.

Instructors: Joe Puncochar, HLWW Activities Director/ Wrestling Coach and various other members of the HLWW Wrestling Community.

FOCACCIA, STROMBOLI & CALZONES! OH MY!

What makes a Focaccia a Focaccia, a Stromboli a Stromboli, and a Calzone a Calzone? How are they different? How are they the same? Discover the delicious answers to these questions as we explore the world of unique rolled & stuffed pizzas, marvelous focaccia bread, and an out-of-this-

world pizza sauce made from the instructor's own personal recipes. Using two different types of homemade dough—one crafted for pizzas and the other for the focaccia, you'll learn how to create these Italian-inspired favorites step-by-step with confidence and ease. Participants are welcome to make them all or simply pick and choose their favorites to

cook-along with, personalizing each creation with toppings and fillings of their choice. With rave reviews from past participants, this fun and flavorful experience just might make takeout pizza a thing of the past!

Equipment Needs: A 9x13 non-stick baking pan or a larger sheet pan will be needed for the focaccia bread. Additional sheet pans will be needed for the Stromboli and the Calzones. A stand mixer is highly recommended in order to be able to make the dough for both options during the class.
