Analyzing (Strengths and Challenges)

Analyzing Challenges

Analyzing Challenges	Discussion Points
Regular Attendance: All Student Groups Meets Performance Standard	Beyond attendance rates, what qualitative indicators will tell us that a student truly feels they belong here?
Continue to look for opportunities for student growth through changes in curriculum, instruction, and differentiation.	What key skills do students need to learn while in school? "Individualized education" can mean different things to different people. Does it mean moving at your own pace, choosing your own topics, or having different assessment methods? What version of individual education would give students a greater sense of purpose?
How can we create more opportunities for students to gain experience in the fields or trades that they hope to pursue after high school?	How do we actively market "non-traditional" fields to students (e.g., women in trades, men in nursing, arts for STEM-focused students) to ensure genuine diversity in these pathways?

Authority

The Board adopts this policy to ensure that parents/guardians have the right to have their children excused from specific instruction that conflicts with their **sincerely held** religious **and/or moral** beliefs.[\[1\]](#)[\[2\]](#)

The rights granted by this policy are granted to parents/guardians of students enrolled in this district when the students are under the age of eighteen (18) and to the students themselves when the student is eighteen (18) or **older**.

Guidelines

The district shall excuse any student from specific instruction, subject to the following conditions:

1. To assist the school district in ensuring that the student is excused from the correct specific instruction, the request must be made in writing and must detail the specific instruction from which the student is to be excused, **including the reason(s) for the request**.
2. The written request to be excused shall be sent by the parent/guardian or student **who is eighteen (18) or older** to the building principal.

One (1) copy of the request shall be retained in the student's permanent school records, one (1) copy kept by the school principal, and one (1) copy submitted to the teacher from whose instruction the student is to be excused.

3. The written request must contain a statement that the specific instruction described conflicts with the **sincerely held** religious **and/or moral** beliefs of the student or of the parents/guardians.
4. The parent/guardian and/or student may request suggested replacement educational activities. The only permissible educational activity for this purpose shall be **substantially**

similar instruction that is consistent with the learning objectives set for the **course**.

5. It shall not be the responsibility of the district or any of its employees to ensure that the student exercises his/her right to be excused in accordance with a parental request. It shall be the responsibility of the student to request permission to leave class when the specific instruction objected to is presented. When the student seeks to be excused, the teacher shall excuse the student if the teacher or principal has a copy of the written request and the written request adequately describes the specific instruction.
6. The building principal shall determine where the student shall report during the time the student is excused.
7. All students excused from specific instruction shall be required to achieve the academic standards established by the district as necessary for graduation.[3][4]

Exemption from Dissection Activities

Students have the right to decline to participate in an education project involving dissection, vivisection, incubation, capture or other harm or destruction of an animal or any part of an animal.[5]

The district must notify students and parents/guardians of their right to decline participation in such activities at least three (3) weeks prior to the start of the education project. Students who do not participate in such activities will be assigned an alternative education project.[5]

2. The conduct was sanctioned or approved by the school or organization.

Student activity or organization means any activity, society, corps, team, club or service, social or similar group, operating under the sanction of or recognized as an organization by the district, whose members are primarily students or alumni of the organization.[6][7]

For purposes of this policy, **bodily injury** shall mean impairment of physical condition or substantial pain.[8]

For purposes of this policy, **serious bodily injury** shall mean bodily injury which creates a substantial risk of death or which causes serious, permanent disfigurement, or protracted loss or impairment of the function of any bodily member or organ.[8]

Authority

The Board prohibits hazing in connection with any student activity or organization regardless of whether the conduct occurs on or off school property or outside of school hours.[4][5][7][9][10]

No student, parent/guardian, coach, sponsor, volunteer or district employee shall engage in, condone or ignore any form of hazing.

The Board encourages students who believe they, or others, have been subjected to hazing to promptly report such incidents to the building principal or designee.

Discrimination/Harassment

Every report of alleged hazing that can be interpreted at the outset to fall within the provisions of policies addressing potential violations of laws against discrimination **or harassment** shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of a hazing investigation, potential issues of discrimination **or harassment** are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination **or harassment** as well as the incidents of alleged hazing.[11][12]

Delegation of Responsibility

Students, parents/guardians, coaches, sponsors, volunteers, and district employees shall be alert to incidents of hazing and shall report such conduct to the building principal or designee.

When a student's behavior indicates a threat to the safety of the student, other students, school employees, school facilities, the community or others, district staff shall report the student to the threat assessment team, as set forth in Policy 236.1, in accordance with applicable law and Board policy.[13][14]

Guidelines

In addition to posting this policy on the district's publicly accessible website, the district shall inform students, parents/guardians, sponsors, volunteers and district employees of the district's policy prohibiting hazing, including district rules, penalties for violations of the policy, and the program established by the district for enforcement of the policy by means of publication in handbooks, presentation at an assembly, and verbal instructions by the coach or sponsor at the start of the season or program.[4]

This policy, along with other applicable district policies, procedures and Codes of Conduct, shall be provided to all school athletic coaches and all sponsors and volunteers affiliated with a student activity or organization, prior to coaching an athletic activity or serving as a responsible adult supervising, advising, assisting or otherwise participating in a student activity or organization together with a notice that they are expected to read and abide by the policies, procedures and Codes of Conduct.[7]

Complaint Procedure

A student who believes that they have been subject to hazing is encouraged to promptly report the incident to the building principal or designee.

Students are encouraged to use the district's report form, available from the building principal, or to put the complaint in writing; however, oral complaints shall be accepted and documented. The person accepting the complaint shall handle the report objectively, neutrally and professionally, setting aside personal biases that might favor or disfavor the student filing the complaint or those accused of a violation of this policy.

The Board directs that verbal and written complaints of hazing shall be provided to the building principal or designee, who shall promptly notify the Superintendent or designee of the allegations and determine who shall conduct the investigation. Allegations of hazing shall be investigated promptly, and appropriate corrective or preventative action be taken when allegations are substantiated. The Board directs that any complaint of hazing brought pursuant to this policy shall also be reviewed for conduct which may not be proven to be hazing under this policy but merits review and possible action under other Board policies.

Interim Measures/~~Police~~ Law Enforcement

Upon receipt of a complaint of hazing, the building principal or designee, in consultation with the Superintendent or designee, shall determine what, if any interim measures should be put in place to protect students from further hazing, bullying, discrimination or retaliatory conduct related to the alleged incident and report. Such interim measures may include, but not be limited to, the suspension of an adult who is involved, the separation of alleged victims and perpetrators, and the determination of what the complaining student needs or wants through questioning.

Those receiving the initial report and conducting or overseeing the investigation will assess whether the complaint, if proven, would constitute hazing, aggravated hazing or organizational hazing and shall report it to ~~the police~~ **law enforcement** consistent with district practice and, as appropriate, consult with legal counsel about whether to report the matter to ~~the police~~ **law enforcement** at every stage of the proceeding. The decision to report a matter to ~~the police~~ **law**

enforcement should not involve an analysis by district personnel of whether safe harbor provisions might apply to the person being reported, but information on the facts can be shared with ~~the police~~ **law enforcement** in this regard.[\[15\]](#)

*Referral to Law Enforcement and ~~Safe Schools Reporting Requirements~~ **School Safety and Security Incident Reporting** –*

For purposes of reporting hazing incidents to law enforcement in accordance with ~~Safe Schools Act~~ **school safety and security** reporting, the term **incident** shall mean an instance involving an act of violence; the possession of a weapon; the possession, use, or sale of a controlled substance or drug paraphernalia as defined in the Pennsylvania Controlled Substance, Drug, Device and Cosmetic Act; the possession, use, or sale of alcohol or tobacco **products**; or conduct that constitutes an offense listed under the ~~Safe Schools Act~~ **school safety and security provisions of School Code**.[\[16\]](#)[\[17\]](#)[\[18\]](#)

An individual needing medical attention or seeking medical attention for another shall not be subject to criminal prosecution if the individual complies with the requirements under law, subject to the limitations set forth in law.[\[15\]](#)

Students –

If the investigation results in a substantiated finding of hazing, the investigator shall recommend appropriate disciplinary action up to and including expulsion, as circumstances warrant, in accordance with the Code of Student Conduct. The student may also be subject to disciplinary

Nonstudent Violators/Organizational Hazing -

If the investigation results in a substantiated finding that a coach, sponsor, or volunteer affiliated with the student activity or organization engaged in, condoned or ignored any violation of this policy, the coach, sponsor, or volunteer shall be disciplined in accordance with Board policy and applicable laws and regulations. Discipline could include, but is not limited to, dismissal from the position as coach, sponsor, or volunteer, and/or dismissal from district employment.[\[26\]](#)

Purchase Methods

When a request for purchase of equipment, supplies or services has been submitted and approved as outlined below, the procurement method to be used will be determined based on the type of purchase and the total cost of the purchase as further outlined below. This procedure outlines how the cost thresholds for determining when the quote or formal bidding procedures that are required by state law as reflected in Policy 610 must be modified when making purchases for federally funded purposes to which the Uniform Grant Guidance or USDA regulations apply, so as to comply with both state and federal requirements. At each point where requirements for food service-related procurement under USDA regulations differ, a note will refer to the Food Service Program Notes at the end of this procedure. Final determination of which purchasing procedures are to be applied is delegated to the ~~Business Manager~~ **Director of Finance** under the authority of the Board.

Standard Procurement Documents and Purchase Request Process

The district shall use purchase orders and/or requisitions for purchase requests in accordance with the applicable purchase method.

The district shall use paper and/or electronic purchasing records, which are pre-numbered and are accessible to designated purchasing staff in the Business Office.

Purchase requests by an employee must be submitted to the building administrator or immediate supervisor. Purchase of all budgeted items or items approved by an administrator or supervisor must be initiated by use of a purchase order or requisition submitted to the **Director of Finance**.

Purchase orders and requisitions shall contain information including, but not limited to:

1. Description of the services to be performed or goods to be delivered.
2. Location of where services will be performed, or goods will be delivered.
3. Appropriate dates of service or delivery.

Documentation on purchase orders and requisitions shall be maintained in accordance with the district's Records Management Policy and records retention schedule. (Pol. 800)

Contracts shall be reviewed by the Board Secretary, ~~Business Manager~~ **Director of Finance**, Superintendent and the school solicitor prior to submission to the Board for approval.

Contracts to which the Uniform Grant Guidance apply shall contain the clauses specified in Appendix II to 2 CFR Part 200 (Contract Provisions for Non-Federal Entity Contracts Under Federal Awards), when applicable.

[See Food Service Program Notes below for specific clauses required by USDA regulations to be included in cost reimbursable procurement contracts.]

Micro-Purchases Not Requiring Quotes or Bidding

For purposes of this procedure, **micro-purchase** means a purchase of equipment, supplies or services for use in federally funded programs using simplified acquisition procedures, the aggregate amount of which does not exceed a base amount of ~~\$10,000~~ **\$15,000**. The micro-purchase dollar threshold is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register or announced as an exception by the federal Office of Management and Budget shall apply if other than ~~\$10,000~~ **\$15,000**.(48 CFR Subpart 2.1)

Note: The micro-purchase maximum for federal purposes is lower than the amount below which the School Code allows purchase for nonfederal purposes to be made without obtaining at least three (3) written or telephonic quotes or using formal competitive bidding.

The micro-purchase method is used in order to expedite the completion of its lowest dollar small purchase transactions and minimize the associated administrative burden and cost. Procurement by micro-purchase is the acquisition of equipment, supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold.

To the extent practicable, the district distributes micro-purchases equitably among qualified suppliers when the same or materially interchangeable products are identified and such suppliers offer effectively equivalent rates, prices and other terms. The ~~Business Manager~~ **Director of Finance** will be responsible to determine the equitable distribution of micro-purchases.

Micro-purchases may be awarded without soliciting competitive quotations if the district considers the price to be reasonable. The district will maintain evidence of this reasonableness in the records of all micro-purchases. Reasonable means that sound business practices were followed and the purchase is comparable to market prices for the geographic area. Such determinations of reasonableness may include comparison of the price to previous purchases of the same item or comparison of the price of items similar to the item being purchased.

Even if the cost of a purchase qualifies it as a micro-purchase, bidding or small purchase procedures may be used optionally when those procedures may result in cost savings.

Small Purchase Procedures

For purposes of this procedure, **small purchase procedures** are those relatively simple and informal procurement methods for securing equipment or supplies that cost more than the amount qualifying as a micro-purchase and do not ~~\$23,800~~ **\$24,500** or more, or in the case of services other than construction, maintenance or repair on school facilities, where the total cost does not exceed the ~~\$250,000~~ **\$350,000** federal Simplified Acquisition Threshold at which formal competitive bidding or competitive proposals are required. Small purchase procedures cannot be used for purchases of equipment or supplies or for construction, repair or maintenance services costing ~~\$23,800~~ **\$24,500** or more because the School Code requires formal competitive bidding at that level of cost.

The base amount at which bidding is required under state law for purchases of equipment, supplies and construction, maintenance or repair services on school facilities is adjusted for inflation annually, and the adjusted amount most recently determined and published in the Pennsylvania Bulletin shall apply if other than ~~\$23,800~~ **\$24,500**. (24 P.S. Sec. 120)

The federal Simplified Acquisition Threshold at which competitive bidding or competitive proposals are required is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register or announced as an exception by the federal Office of Management and Budget shall apply if other than ~~\$250,000~~ **\$350,000**. (48 CFR Subpart 2.1, 2 CFR 200.102)

Because state law does not require competitive bidding for the purchase of services other than construction, maintenance or repairs on school facilities regardless of total cost, small purchase procedures, including a request for proposal (RFP) procedure, may be used for procurement of such other services except when the estimated total cost will be at or over the federal threshold at which formal competitive bidding or competitive proposals are required (~~\$250,000~~ **\$350,000**).

[See Food Service Program Notes below for exemption from bidding for purchases of perishable food items costing less than ~~\$250,000~~ **\$350,000.]**

If small purchase procedures are used, written or telephonic price or rate quotations are obtained from at least three (3) qualified sources and records of quotes are maintained as provided in Policy 610. (Pol. 610)

Formal Competitive Bidding

Publicly Solicited Sealed Competitive Bids:

For purchases of equipment or supplies, or of services for construction, maintenance or repairs of school facilities, sealed competitive bids are publicly solicited and awarded to the lowest responsive and responsible bidder as provided in Policy 610 when the total cost is estimated to be ~~\$23,800~~ **\$24,500** or more. (Pol. 610)

Note: The amount at which formal competitive bidding or competitive proposals are required by federal regulations is much higher than the base amount at which the School Code requires competitive bidding. Therefore, the lower base amount specified by the School Code, as annually adjusted, is used to determine when bidding will be used for purchases of equipment or supplies, or for obtaining services for construction, maintenance or repairs on school facilities. (24 P.S. Sec. 120)

State law does not require bidding for the purchase of services other than construction, maintenance or repairs on school facilities regardless of total cost. For procurement of such other services for federally funded purposes to which the Uniform Grant Guidance applies, formal competitive bidding or competitive proposals will be used when the estimated total cost will be at or over the federal threshold of ~~\$250,000~~ **\$350,000**.

The federal Simplified Acquisition Threshold at which competitive bidding or competitive proposals are required is adjusted periodically by the federal government, and the threshold most recently established and published in the Federal Register or announced as an exception by the federal Office of Management and Budget shall apply if other than ~~\$250,000~~ **\$350,000**. (48 CFR Subpart 2.1, 2 CFR 200.102)

For procurement of services costing at or over the ~~\$250,000~~ **\$350,000** federal threshold other than for construction, maintenance or repairs on school facilities, the use of competitive sealed bidding is considered feasible and appropriate when:

1. A complete, adequate, and realistic specification or purchase description is available;
2. Two (2) or more responsible bidders are willing and able to compete effectively for the business; and
3. The procurement lends itself to a firm fixed-price contract and the selection of the successful bidder can be made principally on the basis of price.

Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs must be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of. Any or all bids may be rejected if there is a sound documented reason.

[See Food Service Program Notes below for reference to state requirements regarding contracts with food service management companies and contractors of pre-plated meals.]

Competitive Proposals

State law does not require public school entities to solicit competitive bids for services other than construction, repairs or maintenance of school facilities, for which competitive bidding is required if the cost will be a base amount of ~~\$23,800~~ **\$24,500** or more. State law allows competitive proposals relating to work on facilities in lieu of bidding only in the context of guaranteed energy savings contracts.

Federal regulations allow the use of competitive proposals as an alternative to formal competitive bidding when conditions are not appropriate for the use of sealed bids.

In the case of services other than for construction, repairs or maintenance of school facilities costing less than that threshold, the district may use small purchase procedures or micro-purchase procedures as applicable based on total cost. A request for proposal (RFP) process can also meet or exceed the small purchase competition requirements under state law and Policy 610 for the acquisition of services other than for construction, repairs or maintenance of school facilities, and can be used if the total cost will be less than ~~\$250,000~~ **\$350,000**.

When permitted, the technique of competitive proposals is normally conducted with more than one (1) source submitting an offer, and either a fixed price or cost-reimbursement type contract is awarded. Competitors' qualifications are evaluated and the most qualified competitor is selected,

subject to negotiation of fair and reasonable compensation. The district shall comply with other applicable state and federal law and regulations, Board policy and administrative regulations regarding purchasing; the district may consult with the school solicitor or other qualified counsel in determining the required process for purchasing through competitive proposals when necessary.

If this method is used, the following requirements apply:

1. Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical.
2. Proposals must be solicited from an adequate number of qualified sources.
3. Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.

An alternative form of competitive proposal is permitted only for qualifications-based procurement of architectural and engineering services, in which price is not a selection factor and reasonable compensation is negotiated after source selection. This alternative is not permitted for procurement of other types of services.

Competitive proposals shall be evaluated by the ~~Business Manager~~ **Director of Finance** and/or the Federal Programs Coordinator based on factors including but not limited to:

1. Cost, Experience of contractor, Availability, Personnel qualifications, Financial stability, Minority business, women's business enterprise, or labor surplus area firm status, Project management expertise, and Understanding of district needs.

Evaluations shall be completed in a timely manner, documented and shall be reviewed by the ~~Business Manager~~ **Director of Finance** and/or the Federal Programs Coordinator.

Contract/Price Analysis

The district performs a cost or price analysis in connection with every procurement action in excess of ~~\$250,000~~ **\$350,000**, including contract modifications. (2 CFR Sec. 200.323(a)).

A **cost analysis** generally means evaluating the separate cost elements that make up the total price, while a **price analysis** means evaluating the total price, without looking at the individual cost elements.

The method and degree of analysis is dependent on the facts surrounding the particular procurement situation; however, the ~~Business Manager~~ **Director of Finance** and the Federal Programs Coordinator must come to an independent estimate prior to receiving bids or proposals. (2 CFR Sec. 200.323(a)). As part of the analysis, the ~~Business Manager~~ **Director of Finance** will enact established business practices which may include evaluation of similar prior procurements and a review process.

Negotiated Profit

In any procurement in which there has been no price competition, or in which a cost-analysis is performed, profit must be negotiated separately as an element of price. Accordingly, solicitations of bids, proposals or quotes shall require that bids, proposals or quotes be limited to costs other than profit, and exclude profit.

To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work. (2 CFR Sec. 200.323(b)).

When profit must be negotiated as a separate element of the total price, it shall be negotiated by the ~~Business Manager~~ **Director of Finance** and the Federal Programs Coordinator.

Noncompetitive Proposals (Sole Sourcing)

Procurement by noncompetitive proposals means procurement through solicitation of a proposal from only one (1) source and may be used only when one or more of the following circumstances apply:

1. The item is available only from a single source.
2. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation. An **emergency** exists whenever the time required for the Board to act in accordance with regular procedures would endanger life or property or threaten continuance of existing school classes.
3. The federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the district.
4. After solicitation of a number of sources, the district determines the competition is inadequate.

In addition to standard procurement policy and procedures, the district will document the grounds for using the noncompetitive method in lieu of an otherwise required competitive method of procurement, which may include written confirmation from the contractor as the sole source of the item. Documentation must be submitted to and maintained by the Business Office.

All noncompetitive proposals will ultimately be approved by the Board. The district may utilize legal advice from the solicitor regarding noncompetitive proposals.

Profit must be negotiated separately for noncompetitive proposals, and a cost or price analysis will also be performed for noncompetitive proposals when the price exceeds ~~\$250,000~~ **\$350,000**.

Purchase Cards

The district approves the use of procurement cards for permissible purchases by designated employees to improve the efficiency of purchasing activities, reduce processing expenses, improve controls for small-dollar purchases, and streamline contractor payment.

Procurement cards may be used for purchases under federal programs. The use of procurement cards is governed by Board policy 625 Procurement Cards and established administrative regulations. (Pol. 625)

Full and Open Competition

All procurement transactions must be conducted in a manner providing full and open competition consistent with 2 CFR Sec. 200.319. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals must be excluded from competing for such procurements. Some of the situations considered to be restrictive of competition include but are not limited to:

1. Placing unreasonable requirements on firms in order for them to qualify to do business.
2. Requiring unnecessary experience and excessive bonding.
3. Noncompetitive pricing practices between firms or between affiliated companies.
4. Noncompetitive contracts to consultants that are on retainer contracts.
5. Organizational conflicts of interest.
6. Specifying only a “brand name” product instead of allowing “an equal” product to be offered and describing the performance or other relevant requirements of the procurement.
7. Any arbitrary action in the procurement process.

Minority Businesses, Women’s Business Enterprises, Labor Surplus Area Firms

The district must take necessary affirmative steps to assure that minority businesses, women’s business enterprises, and labor surplus area firms are used when possible. Affirmative steps must include: (2 CFR Sec. 200.321)

1. Placing qualified small and minority business and women’s business enterprises on solicitation lists.
2. Assuring that small and minority businesses, and women’s business enterprises are solicited whenever they are potential sources.

3. Dividing total purchasing requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business and women's business enterprises.
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses and women's business enterprises.
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.
6. Requiring the prime contractor, if subcontracts are let, to take the affirmative steps listed above.

Geographical Preferences Prohibited

The district must conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state, local, or tribal geographical preferences in the evaluation of bids or proposals, except in those cases where applicable federal statutes expressly mandate or encourage geographic preference. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

[See Food Service Program Notes below for permissibility of geographic preferences and "Buy American" practices in purchasing certain food products]

Prequalified Lists

The district must ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, the district must not preclude potential bidders from qualifying during the solicitation period.

[See Food Service Program Notes below for reference to state requirements regarding contracts with food service management companies and contractors of pre-plated meals.]

Solicitation Language

The district must ensure that all solicitations incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description must not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, must set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible.

When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a “brand name or equivalent” description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which must be met by offers must be clearly stated; and identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.

Avoiding Acquisition of Unnecessary or Duplicative Items

The district must avoid the acquisition of unnecessary or duplicative items. Additionally, consideration must be given to consolidating or breaking out procurements to obtain a more economical purchase; and, where appropriate, an analysis must be made of leases versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

These considerations are given as part of the process to determine the allowability of each purchase made with federal funds. Such considerations are accessible in the procedure attached to Policy 626: Allowability of Costs – Federal Programs.

Use of Intergovernmental Agreements and Cooperative Purchasing

To foster greater economy and efficiency, the district enters into state and local intergovernmental agreements where appropriate for cooperative purchasing or use of common or shared goods and services, as permitted by the Intergovernmental Cooperation Act, the School Code and the Commonwealth Procurement Code. (Pol. 613; 53 Pa. C.S. Ch. 23; 24 P.S. 521; 62 Pa. C.S. Ch. 19)

When procuring supplies or services for federally funded purposes to which the Uniform Grant Guidance applies, the district shall verify that the organization conducting the procurement pursuant to such agreements complies with the applicable procurement methods, requirements and standards of the Uniform Grant Guidance as outlined in this procedure.

Use of Federal Excess and Surplus Property

The district considers the use of federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

Debarment and Suspension

The district awards contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

[See Food Service Program Notes below for reference to state requirements regarding contracts with food service management companies and contractors of pre-plated meals.]

The district may not subcontract with or award subgrants to any person or company who is debarred or suspended. For all contracts over \$25,000 the district verifies that the contractor with whom the district intends to do business is not excluded or disqualified. (2 CFR Part 200, Appendix II, and 2 CFR Sec. 180.220 and 180.300).

All successful contractors must provide written certification that they have not been suspended or debarred from federal projects. The ~~Business Manager~~ **Director of Finance** and/or the Federal Programs Coordinator will be responsible for verification. Such verification may include accessing the online federal System for Award Management (SAM) to determine whether any relevant party is subject to any suspension or debarment restrictions.

Maintenance of Procurement Records

The district must maintain records sufficient to detail the history of all procurements. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, the basis for the contract price (including a cost or price analysis), and verification that the contractor is not suspended or debarred.

Maintenance of records of procurement will be governed by Board policy 800 Records Management and the district's established records retention schedule. (Pol. 800)

Time and Materials Contracts

The district may use a time and materials type contract only: (1) after a determination that no other contract is suitable; and (2) if the contract includes a ceiling price that the contractor exceeds at its own risk. **Time and materials type contract** means a contract whose cost to the district is the sum of: the actual costs of materials, and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, each contract must set a ceiling price that the contractor exceeds at its own risk. Further, the district must assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

Settlements of Issues Arising Out of Procurements

The district alone is responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the district of any contractual responsibilities under its contracts. Violations of law will be referred to the local, state, or federal authority having proper jurisdiction.

Protest Procedures to Resolve Dispute

The district maintains protest procedures to handle and resolve disputes relating to procurements and, in all instances, discloses information regarding the protest to the awarding agency. Protest procedures will be acted on in accordance with current state law and regulations, established district administrative regulations and the advice of the solicitor. (Pol. 610)

Food Service Program Notes:

Exemption from Bidding for Perishable Food Items -

The School Code exempts purchases of perishable food items from bidding requirements. Bidding for perishable food items is required only if the cost would be at or over the federal threshold at which formal competitive bidding is required (~~\$250,000~~ **\$350,000**). Small purchase procedures may be used for purchases below ~~\$250,000~~ **\$350,000**, or micro-purchase procedures for purchases below ~~\$10,000~~ **\$15,000**. Use of bidding should be considered as an option if it is feasible and likely to result in cost savings.(24 P.S. Sec. 504(d))

Geographic Preferences -

The district is permitted to apply a geographic preference when procuring unprocessed locally grown or locally raised agricultural products. When a geographic preference is applied, the district has discretion to determine the local area to which the geographic preference option will be applied.

Unprocessed locally grown or locally raised agricultural products means only those agricultural products that retain their inherent character. The effects of the following food handling and preservation techniques shall not be considered as changing an agricultural product into a product of a different kind or character: cooling; refrigerating; freezing; size adjustment made by peeling, slicing, dicing, cutting, chopping, shucking, and grinding; forming ground products into patties without any additives or fillers; drying/dehydration; washing; packaging (such as placing eggs in cartons), vacuum packing and bagging (such as placing vegetables in bags or combining two (2) or more types of vegetables or fruits in a single package); the addition of ascorbic acid or other preservatives to prevent oxidation of produce; butchering livestock and poultry; cleaning fish; and the pasteurization of milk. (7 CFR Sec. 210.21, 215.14a, 220.16)

Buy American -

The district shall purchase, to the maximum extent practicable, domestic commodities or products for food service purposes. The term **domestic commodity or product** means: (7 CFR Sec. 210.21, 220.16)

1. An agricultural commodity that is produced in the United States; and
2. A food product that is processed in the United States substantially using agricultural commodities that are produced in the United States.

Mandatory Contract Clauses -

The following provisions shall be included in all cost reimbursable contracts for food services purchases, including contracts with cost reimbursable provisions, and in solicitation documents prepared to obtain offers for such contracts: (7 CFR Sec. 210.21, 215.14a, 220.16)

1. Allowable costs will be paid from the nonprofit school food service account to the contractor net of all discounts, rebates and other applicable credits accruing to or received by the contractor or any assignee under the contract, to the extent those credits are allocable to the allowable portion of the costs billed to the school food authority;
2. (a) The contractor must separately identify for each cost submitted for payment to the school food authority the amount of that cost that is allowable (can be paid from the nonprofit school food service account) and the amount that is unallowable (cannot be paid from the nonprofit school food service account); or

(b) The contractor must exclude all unallowable costs from its billing documents and certify that only allowable costs are submitted for payment and records have been established that maintain the visibility of unallowable costs, including directly associated costs in a manner suitable for contract cost determination and verification;
3. The contractor's determination of its allowable costs must be made in compliance with the applicable departmental and program regulations and Office of Management and Budget cost circulars;
4. The contractor must identify the amount of each discount, rebate and other applicable credit on bills and invoices presented to the school food authority for payment and individually identify the amount as a discount, rebate, or in the case of other applicable credits, the nature of the credit. If approved by the state agency, the school food authority may permit the contractor to report this information on a less frequent basis than monthly, but no less frequently than annually;
5. The contractor must identify the method by which it will report discounts, rebates and other applicable credits allocable to the contract that are not reported prior to conclusion of the contract; and
6. The contractor must maintain documentation of costs and discounts, rebates and other applicable credits, and must furnish such documentation upon request to the school food authority, the state agency, or the department.

Contracts with Food Service Management Companies -

Procedures for selecting and contracting with a food service management company (FSMC) shall comply with guidance provided by the Pennsylvania Department of Education, Division of Food and Nutrition, including standard forms, procedures and timelines for solicitation, selection and approval of proposals and contracts. (7 CFR Sec. 210.16, 210.19, 210.21, 215.14a, 220.16)

Pre-Plated Meals -

Procedures for selecting and contracting with contractors of pre-plated meals shall comply with guidance provided by the Pennsylvania Department of Education, Division of Food and Nutrition, including standard forms, procedures and timelines for solicitation, selection and approval of proposals and contracts. (7 CFR Sec. 210.16, 210.19, 210.21, 220.16)

Prior to submitting the incidents report, the Superintendent and each law enforcement agency having jurisdiction over school property shall do all of the following:[\[2\]](#)

1. No later than thirty (30) days prior to the deadline for submitting the report to the PA Department of Education, the Superintendent shall submit the report to the law enforcement agency that has jurisdiction over the relevant school property.
