

WELCOME

Each school district requires all school faculty and staff, including contracted personnel, to receive at least 2 hours of training in suicide awareness and prevention annually. Such training may include, but not be limited to, youth suicide risk factors, warning signs, protective factors, response procedures, referrals, post-intervention, and resources available within the school and community.

This webpage includes information pertaining to the training requirements for RSA 193.J / Senate Bill 282 : Suicide Prevention Education. With the understanding that sensitive material will be covered, this 3-Step training is designed to be completed at your own pace. Please feel free to take breaks from the training as needed.
