## Why should I join the Special Education Local Task Force #19?

- ◆ Play an important role in communicating systemic needs and challenges in special education to the appropriate sources.
- ◆ Be part of the collaboration between the intermediate unit, public school districts, and other local agencies and organizations.
- ◆ Parents are often the first group to know or recognize challenges and needs.
- ◆ Help translate observations of challenges and needs into action for positive change.
- ◆ Working together locally to provide reasonable solutions with community resources are generally more satisfying and timely.

## How do I become a member?

- ◆ Parents of students in public school entities within the geography of our member districts and community partners just need to attend 2 meetings to become an active member!

## What can I expect from meetings?

- ◆ You will connect with other parents and community members to gain knowledge and understanding of a variety of topics important in special education as well as identify and discuss issues in our local district in order to support a solution with positive outcomes for all!
