**Reports:**

**Superintendent:** There is a regional millage on May 5 ballot for career and technical education across the Eastern UP. Regional millage has to be approved by the three county areas, not by local school districts. It is a 1 mil request. There is information on the district website. Through contact with Mrs. Reynolds the school year is going nicely. We will be connecting on Monday.

**Teacher:** We are just beyond 100 days for school year! Since our last meeting, we've completed NWEA Winter Testing and ended another marking period. We've celebrated Martin Luther King Day, our birthdays, and our learning successes. We've learned about healthcare and diseases, human safety, and food problems in other countries such as malnutrition. We've practiced using descriptive vocabulary both orally and in writing, learned how to compare decimal numbers, use mixed operations in word problems, and how to decode words with blended vowel sounds. We've pretended that we were pioneers and detectives, danced to silly movement videos, practiced our coordination skills, engaged in learning with other students, and designed a STEM 100 Day project as engineers. It has been a GREAT month!  
Thank you for continuing to support our school!

**Parks Committee:** No new information. Jim Gilligan is working on update of zoning application.

**MICIP:** Ms. Beson attended and felt it was a good meeting with good communication and discussion. Next meeting is 2/13.
