# SAMR In Math

**SUBSTITUTION**
Students complete worksheets using a digital form (OneNote). Answering questions on IXL or DeltaMath.

**MODIFICATION**
Students collaboratively solve real-world problems in a shared spreadsheet with live data updates.

**AUGMENTATION**
Students use graphing apps (Desmos/Graphing Calculator) for immediate visual feedback.

**REDEFINITION**
Students design their own instructional videos or interactive math tutorials for younger students using a tool like Edpuzzle.
