

UCI - Chemistry Academy 2026 Summer STEM Summit

"The UCI Chemistry Department is proud to nurture today's youth to be tomorrow's leaders."

The UCI Chemistry Department brings forth a series of exciting and interactive sessions to explore topics from global warming/climate change to forensics science to cosmetic chemistry. Students will have the unique experience of learning from experts and industry leaders in state of the art chemistry laboratories at UCI.

Two uniquely engaging themes each session to serve different interests and to present age appropriate content...

- Scholarships
- UCI Affiliate Discounts
