A DISTRICT COMMUNICATION

Middle School Construction Update

Dear Buckeye Valley Community,

As we look forward to the future of our district, I am excited to share an update regarding the upcoming addition to our Middle School. This project represents a significant step in providing our students with the modern facilities they need to succeed.

In the coming weeks, you will begin to see activity to the west of the current Middle School building as we prepare the site for construction later this year. This initial phase involves clearing trees to make way for a dedicated Middle School Bus Loop that will separate bus and passenger traffic and significantly enhance parking lot safety for our students and families.

I want to emphasize that as we grow, we remain committed to being responsible stewards of our local environment. To protect Ohio's endangered Indiana and Northern Long-Eared bats, we have carefully timed this work to occur before March 31, ensuring we do not disturb their roosting season.

This "Felling" process is one of the first visible steps in this exciting Middle School project. We are thrilled to begin this journey and look forward to sharing more details with you soon regarding our official Groundbreaking ceremony later this spring.

Thank you for your continued support of Buckeye Valley Local Schools and our commitment to our students' future.

Sincerely,

Ric Stranges

Superintendent, Buckeye Valley Local Schools
