

## Welcome to the Naper Family!

Dear Incoming Kindergarten Students and Families,

Welcome to Naper Elementary! We are absolutely thrilled to have you join our community. From the moment you step through our doors, you aren't just starting school—you are becoming a Naper Knight. At Naper, we believe that when you join our school, you join a true family. We pride ourselves on understanding the definition of what it means to be "**Better Together**," and we are honored that you are now a part of that mission.

Our school is home to the most amazing educators who truly love children and are dedicated to their success. We operate on the foundational belief that every student arrives each morning ready to do everything they can to be the best they can be. It is our distinct honor to watch our students, your children, enter as five or six-year-olds and support them as they grow, learn, and lead until they graduate fourth grade.

As you begin this journey, we know the path ahead will be filled with incredible highs and, of course, countless magical moments along the way. While there will naturally be opportunities for growth and learning through challenges, we are committed to navigating those moments together. We are so excited to see the wonderful person you will become during your time here. Welcome Little Knights!

Erin Rodriguez  
Principal  
Naper Elementary
