NHS Community Service Timecard

As an NHS member, one of your main responsibilities throughout the semester will be your completion of the required community service hours. New members are required to complete five hours, while returning members are required to complete ten. As a reminder: tutoring that you are being paid/compensated for does not count as voluntary service. We trust that you shall complete your hours with integrity! If you have any trouble finding volunteering opportunities, we have listed some ideas and contact info for organizations under the Service Opportunities tab on the Heritage NHS website. Please contact us through Remind with any questions or concerns!
