VII. Progress Report:

Indicate any additional wellness practices and/or future goals and describe progress made in attaining the goals of the local wellness policy

Our district strives to promote wellness to all students. This year we would like to do some type of activity (fun run for example) with our students. We have not done so in the past. We have met and want to do this in the spring with involvement with High School students. The older students would help the younger students in the fun run. We would like to provide a healthy snack afterwards, we would promote physical activity and healthy eating during this event.
