18:31:00 From Eunice Heredia to Everyone:
As a previous MPS teacher and a parent of two MPS students, I belief MPS should start taking in consideration the consolidation of schools in order to reduce the economical impact of maintaining a building and at the same time relocating the teachers of that building in other schools to fulfill the positions needed. For example, in the southside we have numerous of elementary schools as Allen Field, Forest Home, Rogers, Lincoln Elementary, Kagel and others.

MPS Funding

6:30 pm-6:50 pm

CURRENT FUNDING PARAMETERS FROM THE STATE

Wisconsin schools receive 80% reimbursement for their spent dollars.

Public schools receive 30% reimbursement for their spent dollars.

Which has become more than enough per pupil funding in two years and a 5.5% cut under the Walker administration. (2013-14). The state has not met CERA per pupil adjustments since that time.

If we had received a COLA for the past two years alone, this would account for \$22 Million more district dollars.

THE BIGGEST REASON FOR CLASS SIZE INCREASES

Servicing more students with less staff, and

State funding formulas prioritize small dollar tax refunds to property owners over servicing requirements of school districts.

*Note: we also now have a significant staffing shortage that complicates this situation two fold.
