NORTH CALDWELL BUSINESS ADMINISTRATOR RECEIVES PRESTIGIOUS AWARD

Congratulations to our very own North Caldwell Business Administrator and Board Secretary, Mike Halik, on being selected as a recipient of the Distinguished Service Award from the New Jersey Association of School Business Officials (NJASBO).

Each year, only six business administrators across the state receive this honor. Recipients must meet rigorous criteria and are nominated by fellow business administrators from around New Jersey, making this recognition especially meaningful within the BA community.

This prestigious award is well deserved. Mr. Halik has served North Caldwell with the highest level of professionalism and excellence since 2013. In addition to his work in the district, he has been an active leader in both county and state programs, mentoring many new and aspiring business administrators and holding leadership roles in local and statewide associations.
