NJGPA-A

FOR STUDENTS IN THE CLASS OF 2027

Practicing for the New Jersey Graduation Proficiency Assessment-Adaptive (NJGPA-A)

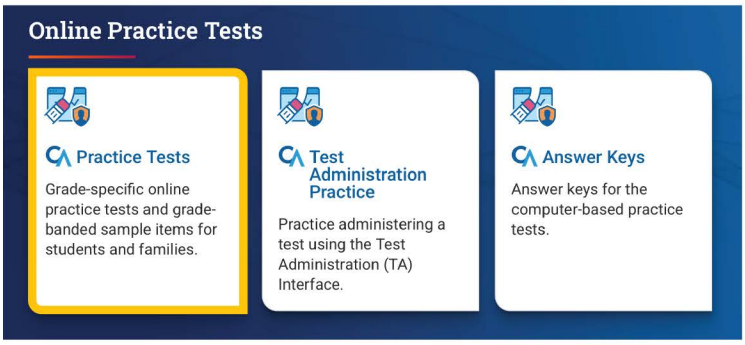

The NJGPA-A measures what you know and can do in English Language Arts and Math based on New Jersey's learning standards. It is one way to meet the state's graduation assessment requirement, and taking the free online practice tests can help you get comfortable with the testing platform and tools you'll use on test day. The practice tests include grade-level content, but they aren't meant for studying; **their main purpose is to help you feel confident using the assessment tools and system before test day.**

Try the Official Online Practice Tests

These online tests allow you to experience the same testing system, tools, and question types used during the assessment.

Start here:

1. Visit New Jersey Assessments Portal – Practice Tests
2. Scroll down and click: **Practice Tests**

3. Select **Continue as Guest** and **Guest Session**
4. Choose your **Grade Level** or **Course: For the GPA, choose "High School" (not 11)**
5. Begin practicing

Practice NJGPA-A tests are available for English Language Arts and Mathematics.

Tips for Preparing

To prepare for the New Jersey Graduation Proficiency Assessment-Adaptive (NJGPA-A):

- Review the practice tests in ELA and Mathematics.
- Practice using the testing platform, item formats, and the tools and features used during the assessment.
- Ask educators and staff in your school if you need help reviewing key skills.

Practicing ahead of time helps students feel more confident and comfortable on test day.
