Notes:

1. Step placement on the schedule may not correspond to number of years of experience.
2. Placements on the salary schedule will advance one step from prior year placement.
3. Column movement is lateral, and not more than one column per year.
4. The MA+45 column will include the Specialist Degree. Any teacher earning a Specialist Degree will be placed on the MA+45 scale regardless of hours required for the degree program.
5. Teachers with a Doctorate degree will be placed on the MA+45 scale and given a \$2,500 stipend.
6. Full-time teachers, as defined by the Department of Elementary and Secondary Education for this purpose, will receive an additional monetary payment each year, due to state funding incentives the district will receive for maintaining a school calendar with a minimum of 169 days pursuant to 163.045, RSMo. The amount of the additional payment will be determined based on the amount of the incentive received and the number of teachers eligible to receive the payment, resulting in all eligible full-time teachers receiving the same amount. Part-time teachers will receive payment on a pro-rata basis. Please note that the funding for this incentive is not guaranteed and may be reduced or eliminated at any time by the state. Therefore, these additional payments for teachers will only be distributed after the district receives the anticipated funding incentive money from the state. If no incentive funding is received, no incentive payments will be made.
