

Aledo High School Graduation Cord Guidelines

At Aledo High School, graduation cords are reserved for students who have earned them through school-sponsored clubs, organizations, or recognized academic achievements. This policy ensures that cords remain a meaningful symbol of dedication and involvement within our school community.

School-Sponsored Emphasis:

Limiting cords to school-affiliated groups reinforces the connection between student recognition and active participation in school-endorsed programs.

Preserving Meaning and Value:

By awarding cords only for specific, verified accomplishments, we uphold their significance as symbols of genuine effort and achievement.
