

# Peer Tutoring Training

Our Peer Tutors are CHS National Honor Society members, selected for their academic excellence, character, and commitment to service.

They have been trained in the following ways:

## Peer Tutor Training Includes:

### **Appropriate Tutoring Techniques**

How to guide rather than give answers, ask effective questions, and promote understanding instead of memorization.

### **Communication & Active Listening Skills**

Strategies for listening carefully, responding clearly, and adjusting explanations to different learning styles.

### **Encouragement & Positive Support Methods**

How to motivate fellow students, build confidence, and create a welcoming, judgment-free environment.

### **Ethics & Academic Integrity**

Expectations for professionalism, confidentiality, and supporting—not replacing—a student's own work.

### **Subject-Area Readiness**

Confirmation that tutors are strong in the subjects they provide help in, ensuring accurate and reliable assistance.

These young men serve the Catholic High School community each day by helping their classmates understand academic material they may be struggling with. Their dedication reflects both their leadership and their commitment to serving others.
