### IPM statement

It is the goal of SBCSS to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

Actively reduce chemical management practices while increasing and intergrating non-chemical practices for term past prevention. This includes evolving district standars and expectations for staff and maintenance vendors.

### IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Louis Baker	SBCSS IPM Resource Manager
Andy Nelson	SBCSS Program Manager MOT
Alexander Rodriguez	SBCSS Compliance Manager

### Pest management contracting

- Pest management services are contracted to a licensed pest control business.  
Pest Control Business name(s): Commerical Quality Pest Control, Mariposa Landscape, Executive Services
- Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

### Pest identification, monitoring and inspection

Pest Identification is done by: Commercial Quality Pest Control  
*(Example: College/University staff, Pest Control Business, etc.)*

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by Commercial Quality Pest Control and results are communicated to the IPM Coordinator.  
*(Example: District staff title, e.g. Maintenance staff)*

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:  
*(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)*

Continuous inspections of district sites, communication between school staff and M&O staff, including coordination between IPM Resource Manager and site staff, and annual FIT inspections to monitor for long term damage.

### Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:
