

# GUESS WHO'S BACK

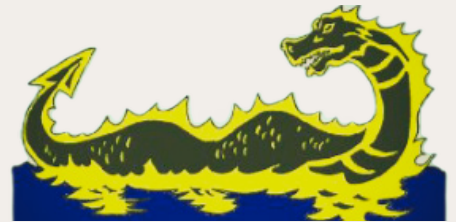

The school newspaper is officially back, and it's something students can be excited about.

Serpentine will be a place to share what's happening at our school, including events, sports, and student opinions. It gives students a chance to speak up and let others know what's going on around campus.

Being part of the newspaper also helps students learn skills like writing, interviewing, and working as a team. It's a fun way to get involved and try something new.

If you like writing, taking photos, or sharing ideas, Serpentine is a great way to do it. If you are interested in joining we would be happy to have you

The MCHS boys basketball team capped off an incredible season by earning the runner-up spot in the state tournament. After a hard-fought journey through the playoffs, the team secured two impressive victories against Pahrnagat Valley and Tonopah, advancing to the state championship game.

In the final, the team faced a strong Smith Valley squad and, despite their best efforts, came up just short. While the championship trophy eluded them, the team's determination, skill, and teamwork made the entire community proud.

Congratulations to the MCHS boys basketball team on a memorable season and an outstanding run to the state finals!

## Lunch Menu

We recently held a survey to find out students' favorite school lunch, and the results were pretty clear. Orange Chicken took first place, with Tamales coming in second. Orange Chicken stayed in the lead because it's a lunch students actually look forward to seeing on the menu.

If you want to be part of the results next time, look out for our staff in the hall. Our next survey is coming soon.

# School History

Our school has a long and interesting history that goes back more than 100 years. According to Hamrey, who worked at the school for 23 years, the earliest known record of the school dates back to 1918.

One thing that makes the school unique is its strong connection to the community. Hamrey shared that four generations of his family have attended the school, showing how deeply rooted it is in local history. "I like that this school has a history that goes back generations," Hamrey said.

The school's mascot, Cecil, is tied to local legend and the myth of the lake, giving it special meaning that represents the area. Over the years, the school has seen many changes, including sports that are no longer offered, such as wrestling.

Our school has a rich history filled with diversity, culture, and many wins along the way. From its early beginnings to today, the school continues to be shaped by tradition, community, and pride.

Once a Serpent, Always a Serpent.

## Spring Sports

As winter turns to spring, it also marks the start of another exciting season of spring sports at MCHS. Student-athletes are preparing to compete in golf, track and field, baseball, and softball as practices get underway and teams begin their seasons.

Students and faculty are encouraged to attend games and meets, cheer on the teams, and celebrate the effort and dedication of our student-athletes. Your support helps make the spring season a memorable and rewarding experience for all.
