

Equipping Our Students for Even Greater Victories

NEW HEALTH AND FITNESS CENTER

Built to Win: A Legacy of Crusader Excellence

Participating in athletics is an exciting and central part of a Morris Catholic education, and it has been since the school's founding nearly 70 years ago. More than 65% of today's students compete in one of our 18 varsity sports.

Through athletics, our student-athletes build character by learning commitment, self-discipline, self-motivation, self-sacrifice, teamwork, and accountability. And they rack up wins, titles, and championships on the field, court, track, ice, mat, and course, while adding to student and alumni pride in the school and learning life skills and lessons. Athletics is a training ground for building the grit and resilience necessary for academic achievement and success in life.

Preparing to Win

Great preparation requires great space. Morris Catholic's new Health and Fitness Center will be a transformational investment in our students and in the future of the school. This two-story state-of-the-art facility will feature a dedicated weight training area, a separate speed and agility training space, and an upgraded athletic trainer room. All students will benefit from the center as it will become an integral part of the physical education program too.

Home Field Advantage

This project extends well beyond the fitness center itself. Significant outdoor improvements will enhance the experience for students, families, and guests to Morris Catholic all while strengthening school pride and visibility. Outdoor enhancements include new public restrooms to better serve game-day crowds, a centrally located concession stand, and a dedicated retail space for selling Crusader gear and apparel. Together these upgrades will create a more welcoming, functional, and vibrant campus for the entire community.

Facilities modernized, increasing by 8,000 square feet.

Answering the Call to Compete

This project represents the first major expansion of the Morris Catholic footprint in more than 60 years, signaling a bold commitment to growth, excellence, and a bright future. To meet the needs of our student-athletes and fuel their growth as individuals and athletes and to help attract future Crusader student-athletes, Morris Catholic is seeking \$4M to modernize the health and fitness center. Winning takes investment, and we invite you to join us in the pursuit of excellence on and off the field.

Our students are ready to take the shot. Let's give them the assist.
