BUILD YOUR RICH LIFE!

Because financial confidence should start before adulthood.

Financial Literacy Workshop for High School Students & Community Families

Most students graduate without understanding **credit, investing, or how to build wealth.**

This workshop equips high school students and their families with practical tools to confidently manage money and design a meaningful financial future.

What You'll Learn

- Define your personal money values & create a "Rich Life Vision."
- Open & manage checking and savings accounts.
- Create a Conscious Spending Plan aligned with your goals.
- Understand credit scores, debt, & responsible borrowing.
- Learn investing basics: 401K, IRA, Roth IRA, Custodial Roth IRA, & Index Funds.
- Build an automated system for saving & investing.
- Understand estate planning & generational wealth.

Why This Matters

Financial literacy creates freedom.

*Understanding money early allows students to make informed decisions about **college, careers, investing, and long term wealth.***

*This workshop empowers students and families to **build confidence, stability, and generational opportunity together.***
