

Join Griswold Public Schools DPAC virtually for

# Introduction to HOPE

HEALTHY OUTCOMES  
FROM POSITIVE EXPERIENCES

**Wednesday, April 8, 2026 @ 7:00 p.m.**

**HOPE aims to fundamentally transform how we advance health and well-being for our children, families, and communities.  
Presented together with SERAC.**

This presentation will take place on ZOOM and is free and open to the public.

## Objectives:

- Understand the growing body of research showing how positive childhood experiences drive healthy development and mitigate the effects of adverse ones.
- Learn about the key positive childhood experiences that help children grow into healthy, resilient adults and how our communities and our systems of care can provide access to them.
- Focus beyond Adverse Childhood Experiences (ACEs) to deepen our understanding and empathy, foster trust among families, and nurture thinking that serves everyone without stigma.

For questions about HOPE, contact Deborah Walker at [DWalker@SeracCT.org](mailto:DWalker@SeracCT.org) or 860-848-2800.
