LEARNING

Kindergarten at Almaden Country Day School is an exciting year of growth, discovery, and confidence-building. Students enjoy engaging enrichments every week—including Spanish, Physical Education, Science, Garden, Music, Library, and our beloved Big Buddies program—all taught by dedicated subject matter specialists. With a strong and balanced academic foundation that prepares students for a successful transition to 1st grade, kindergartners explore and learn through hands-on experiences and field trips, and proudly participate in whole-school assemblies and enjoy performances.

It's a joyful, dynamic environment where young learners thrive and begin to see themselves as capable, curious scholars, and where parents are a part of a vibrant and welcoming community.
