- ✓ **Timing**

IMPROVED SAFETY

✓ Visibility

- Improved sightlines and visibility for Jarrell Middle School, the 1916 Building, and Paw Prints, supporting safer daily movement around campuses.
- A more welcoming, logical multi-campus layout that clearly separates functions and improves wayfinding for families and visitors.

✓ Traffic

- Better traffic circulation and queuing, helping reduce congestion and remove vehicle backup from roadways serving all buildings.

✓ Timing

- Clearing activities are scheduled for the summer, with primary work occurring in June/July so access points are ready before school resumes.
- No students will be on campus during this work, as summer programs will be held at other Jarrell ISD locations.
