

Annual Integrated Pest Management Notice For School Year 2024 - 2025

Dear Parent, Guardian, or Staff Member:

This notice is being distributed to comply with the New Jersey School Integrated Pest Management Act. [insert name of school or school district] has adopted an Integrated Pest Management (IPM) Policy and has implemented an IPM Plan to comply with this law. IPM is a holistic, preventive approach to managing pests that is explained further in the school's IPM Policy included with this notice.

All schools in New Jersey are required to have an Integrated Pest Management Coordinator (IPM Coordinator) to oversee all activities related to IPM and pesticide use at the school.

The IPM Coordinator for North Plainfield School District is: Kelvin White

Name of IPM Coordinator: Kelvin White

Business Phone number: 908-769-6050

Business Address: 33 Mountain Avenue North Plainfield, NJ 07060

The IPM Coordinator maintains the pesticide product label, and the Material Safety Data Sheet (MSDS) (when one is available), of each pesticide product that may be used on school property. The label and the MSDS are available for review by a parent, guardian, staff member, or student attending the school. Also, the IPM Coordinator is available to parents, guardians, and staff members for information and to discuss comments about IPM activities and pesticide use at the school.

As part of a school pest management plan North Plainfield Stony Brook School may use pesticides to control pests. The United States Environmental Protection Agency (EPA) and the New Jersey Department of Environmental Protection (DEP) register pesticides to determine that the use of a pesticide in accordance with instructions printed on the label does not pose an unreasonable risk to human health and the environment. Nevertheless, the EPA and the DEP cannot guarantee that registered pesticides do not pose any risk to human health, thus unnecessary exposure to pesticides should be avoided. The EPA has issued the statement that where possible, persons who are potentially sensitive, such as pregnant women, infants and children, should avoid unnecessary pesticide exposure.

The following pesticides have been used at this location in the past 12 months:

Trade Name	Common Name	EPA Registration #
Vendetta Nitro Cockroach Bait	Clothianidin .5%, Pyriproxyfen .5%	VNB #614
Maxforce FC Ant Bait Stations.	Fipronil	MAX #604
EcoVia WD	Thyme Oil, 2-Phenthy1 Propionate	ECO WD #644
EcoVia CA	Thyme Oil, Rosemary Oil, Cinnamon Oil	ECA #600
Maxforce Fleet Ant Gel	Fipronil	MAX #610
Niban Granular Bait	Orthoboric Acid	NIB #145
