

The Christ School

TCS Middle School Acceptable Use Levels for AI

Level	Name & Icon	What It Means	What You Can Do	Examples of Assignments
Level 1  No AI Use	<i>Independent Mastery</i>	You do all work on your own . AI tools are not allowed .	 Show your own thinking.  Use only what you know.  No AI for research, writing, or editing.	- In-class essay or reflection - Math test or science quiz - Short answer questions - Personal devotion or journal
Level 2  Limited AI Use	<i>Skill Support</i>	You can use AI to check or improve your work, but not to write or create ideas for you.	 Use AI to check grammar or spelling.  Ask AI to explain confusing topics.  Use AI for practice or review.	- Grammar check on a draft - Asking AI to explain a math formula - Quizzing yourself on vocabulary - Getting examples of sentence structures
Level 3  Guided AI Use	<i>Collaborative Learning</i>	You can use AI with teacher guidance to brainstorm, plan, or explore ideas together. You are still the main creator. AI source(s) must be cited.	 Ask AI for ideas or outlines.  Compare AI examples with your own work.  Use AI to organize or explain information.	- Brainstorming essay topics - Creating a study guide with AI support - Using AI to show different ways to graph data - Simulating a historical interview
Level 4  Full AI Integration	<i>Innovation and Application</i>	You can use AI as a partner to create, design, or analyze projects. Always be honest about how you used it. AI source(s) must be cited.	 Use AI to explore complex ideas.  Use AI to design or create visuals.  Use AI to research and evaluate information ethically.	- Creating a business or invention plan - Designing a marketing project using AI visuals - Analyzing data for a science report - Writing a reflection on faith and technology

Note: If not explicitly stated by the teacher, all assignments will default to a Level 1 for AI Use.
