Analysis of Data: Trends & Patterns

Purpose: This worksheet is designed for the strategic planning team to use as they synthesize data. Begin by identifying trends & patterns across data sets to form 4-6 categories ("Spokes"). Then write a descriptive statement or bulleted list for each category that reflects the meaning of the majority of responses in that category. Use "Other" as a category to record meaningful outliers.

Envisioning Question: What are the trends & patterns that develop across the data that could serve as “Spokes” for the strategic plan?
