

Cumberland School Site Council
Meeting Minutes
DATE: November 2, 2025
TIME: 2:45 pm to 3:45 pm
Front Office Conference Room

Members in attendance: Shana Riehl, Stacie Rodriguez, Mary Moorman, Erin Berry, Christy Naderi, Bradley Scholten, Mikhail Astreika, Deepali Suri, Grace Kim

Ms. Riehl called the meeting to order at 2:50 pm.

1. The team reviewed the [Meeting Minutes \(Oct. 6, 2025\)](#). Mikhail moved to approve the minutes, Mary seconded. Minutes were approved
2. The team reviewed a presentation created by Shana on the role of the SSC and its members. The presentation is attached to the agenda for the meeting and here. [Presentation](#)
 - a. A question was brought up by a member about how is the role of SSC is communicated to the community.
 - b. An idea was that it could be communicated in the principal's newsletter..." Here is a link to the current agenda/minutes for SSC"
 - c. An action item is to talk to Mary to have her update the school website with current bylaws and a current agenda/minutes for this school year
3. The team reviewed the Cumberland 2025-2026 SPSA.
 - a. The [Presentation](#) is attached to the agenda for this meeting.
 - b. This plan is also on our Cumberland website. It is updated each year by the district. It currently shows the 24/25 SPSA plan and goals. This will be updated by Shana Riehl.
 - c. A question was asked about the CAASPP test to determine if this test was a California test or a National test.
 - d. Another question was to asked to see if we achieved our goal for the CAASPP test from last year's goals. Shana will look into this to bring this data to the SSC members.
 - e. Another member asked if we could see the data from neighboring schools to compare Cumberland to these schools. Or to other schools in the district?
 - f. There was discussion about what the CAASPP goal was and what this data point actually represents.
 - g. A question was asked wondering if there were/are expenditures to accompany the Action Items in the SPSA. It was clarified that these expenditures are covered by Teacher's current contracts and by district funds.
 - h. Questions were asked about reviewing the data from last year to determine if these goals are achievable, based on the results that we achieved last school year.
 - i. Shana shared with the SSC that the district is moving forward with a pilot of materials for English Language Arts for the 26/27 school year.
 - j. For the 25/26 school year students will be using the Satchel Pulse: Perceptions Survey. This is a new program being used by the district. This data will be used for our SPSA goals for the year.
 - k. The attendance goal for 25/26 is given to us by the school district and is a district goal. The question was brought up asking why the goal was for 5%. It felt like an aggressive goal to the SSC team.
 - l. The team wondered how this goal would be achieved. Shana reminded us that some of these goals come to us from the state.
 - m. The question was asked about why the school's hispanic population is being targeted with the attendance goal.
 - n. The question was asked about how the K-2 students will be surveyed for the SEL goals. Shana said that at this point the district will be focusing on the 3-5th grade students.
 - o. The question was asked about the goal, 1st-5th grade EL students reclassified as English Proficient will increase from 29% to 32%. How is this goal chosen? How is this number chosen? Since the amount of students changes each year, how do you compare this/use this measure from year to year. Shana will look into this to clarify the data point/goal.

- p. The question/point was brought up that if there was context provided to the goals it would help the SSC members to better understand these goals and what we can do as a team to support with the goals. Shana will work on this and this will become an agenda item for a future meeting.
- 4. Shana attached the School Safety Plan for the team to review at a future meeting. Shana will check in with Brandt to determine if the dates are correct.

Next meeting: January 12, 2026
2:45 - 3:45 PM
