

BLUE ENVELOPE PROGRAM

FONTANA SCHOOL POLICE DEPARTMENT

SUPPORTING OUR COMMUNITY

The **Blue Envelope Program** is designed to support members of the Fontana Unified School District community who have conditions or disabilities that may affect their ability to communicate with law enforcement or emergency service personnel. By providing a resource that enhances awareness, fosters effective communication, and promotes more inclusive interactions, the program seeks to bridge the gap between individuals with special needs and emergency responders.

HOW THE PROGRAM WORKS

- The Blue Envelope Program enables individuals to easily present a **blue envelope** or display a logo during interactions with law enforcement or community service personnel. The envelope can hold key information including the individual's identification, emergency contact details, and essential vehicle documents such as registration and proof of insurance.
- *This program is entirely voluntary and **self**-implemented with no registry component required. Participants are provided with a blue envelope designed to enhance communication and ensure quick access to necessary information.*
