Multiplication Contest – 3rd and 4th Grade

On December 15, 2025, our 3rd and 4th grade students participated in an exciting multiplication contest! Students competed in several rounds designed to give them the opportunity to show off their multiplication skills, speed, and accuracy.

We were proud to see students demonstrate perseverance, focus, and confidence as they worked through each round. The contest not only celebrated their hard work in learning multiplication facts, but also encouraged a positive and supportive spirit among our 3rd and 4th Graders.

Thank you for your continued support in helping students practice their multiplication skills at home. Your encouragement makes a meaningful difference in their success.

Important Dates

**January 19, 2026 –
No School – M. L. King Jr. Day**

**January 27, 2026 –
Report Card Night – 2nd MP**

**February 2, 2026 –
Cap and Gown picture –
Kindergartners and Eighth Graders**

Cookies with Santa

Our Cookies with Santa event on December 5, 2025 was absolutely a joyful celebration. From the moment the doors opened, the room was filled with laughter and holiday cheer. Children’s faces lit up as they visited with Santa, decorated treats, and enjoyed festive activities. What made the day truly special, though, was the sense of community—parents, grandparents, siblings, and friends coming together to create memories that will last well beyond the holiday season.

We want to extend a heartfelt thank you to every family and staff member who attended, volunteered, donated, or helped spread the word. Your participation and enthusiasm brought warmth to the event and helped make it such a meaningful gathering.

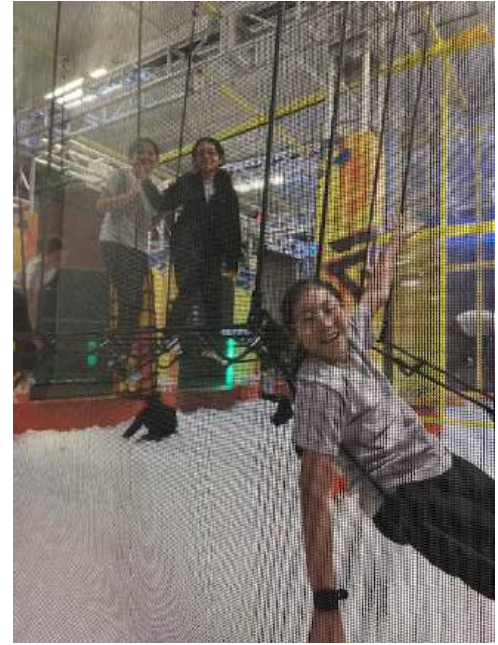

Thank you for your continued support, generosity, and holiday spirit. MLVR is grateful for each of you and look forward to many more special moments together!

Proud of Our Students – NJSLA Celebration

Our school promotes our students' success. The student who did well on their NJSLA on the 2024-2025 school year were invited to a special field trip at Urban Air in Hackensack. The students really enjoyed their time there and we are very proud of them.

Literacy/ESL Parent Classes

I am excited to share the success of our Literacy/ESL Parent Classes held every Thursday at MLVRCS. These classes serve as a vital resource for parents, empowering them with the language skills necessary to engage with their children's education and support their academic journeys.

It is essential that all parents feel equipped to navigate the educational system, communicate with teachers, and participate in school activities. By improving their English language skills, parents are not only enhancing their own opportunities but also setting a strong example for their children.

Feedback from parents has been overwhelmingly positive. Parents have reported significant improvements in their confidence when speaking English and a greater ability to assist their children with homework and school-related tasks. This program fosters a collaborative environment where parents can connect, share experiences, and build a supportive community.

We encourage all parents to take advantage of this wonderful opportunity. Together, we can create a more inclusive and supportive educational environment for our students and families. If you're interested in enrolling or would like more information, please contact Maritza Villanueva at (973) 481-9001 x123 or visit our website at <https://www.mlvracs.org/>

Let's continue to work together to empower our families and enrich our school community!

Social-Emotional Learning (SEL) - 2nd Step Learning

Our social workers go around to our primary grades to teach students lessons on how to deal with their emotions in a safe way and also how to communicate effectively with their peers.

Cora is Growing Up – 2 Month Update

Cora is growing so fast!

At 2-months old, Farmer Melanie & Talia took calf measurements and shared more details about her care and growth. I have attached some pictures, a video and also some lesson plans that Discover Dairy have shared with us if you care to take a look. They have a great Compare/Contrast worksheet for ELA, Vocabulary WS and even a STEM project to build a Cow Stall. If you choose to do any of their lessons please take some pictures so we can share with Discovery Dairy. Thank you for your support!
