CIT Parent Information

The CIT Program is designed to help students develop leadership, communication, and teamwork skills.

Because of this, we encourage students to take the lead in the application process, just as they would when applying for their first job.

Parents should:

- Allow students to complete the application independently
- Avoid scheduling appointments or vacations during the two-week session
- Encourage their student to contact program staff directly with questions

If parents have questions, you are welcome to contact us.

Cell Phone Policy

CITs will not be permitted to use cell phones during the program work hours. If you need to reach your child, please call the program phone line.

Program Expectations

If a CIT is not meeting expectations:

- Staff will discuss concerns with the student
- The student will be given opportunities to improve
- If expectations continue to not be met, the student may be asked to discontinue the program

Submitting an application does not guarantee acceptance into the CIT Program. Acceptance will be determined based on your application, two letters of recommendation, application video, and session availability.

There are 7 spots available per session. Acceptance emails will be sent shortly after the application deadline to the email address listed in your application.

Applicants who are available for more than one session may have a greater chance of being selected, depending on the strength of their application materials and session availability.
