

APOLLO HIGH SCHOOL ADDITIONS & REMODELING

Context of Future Ready Learning

APOLLO HIGH SCHOOL ADDITIONS & REMODELING

Our Instructional Vision

1

Student-Centered Learning

Focusing on individual student strengths, needs, and interests with an emphasis on rigorous academics learned through flexible time and space opportunities.

2

Future-Ready Learners

Preparing students with the knowledge, skills, and character needed for a complex, ever-changing world.

3

Authentic Assessment

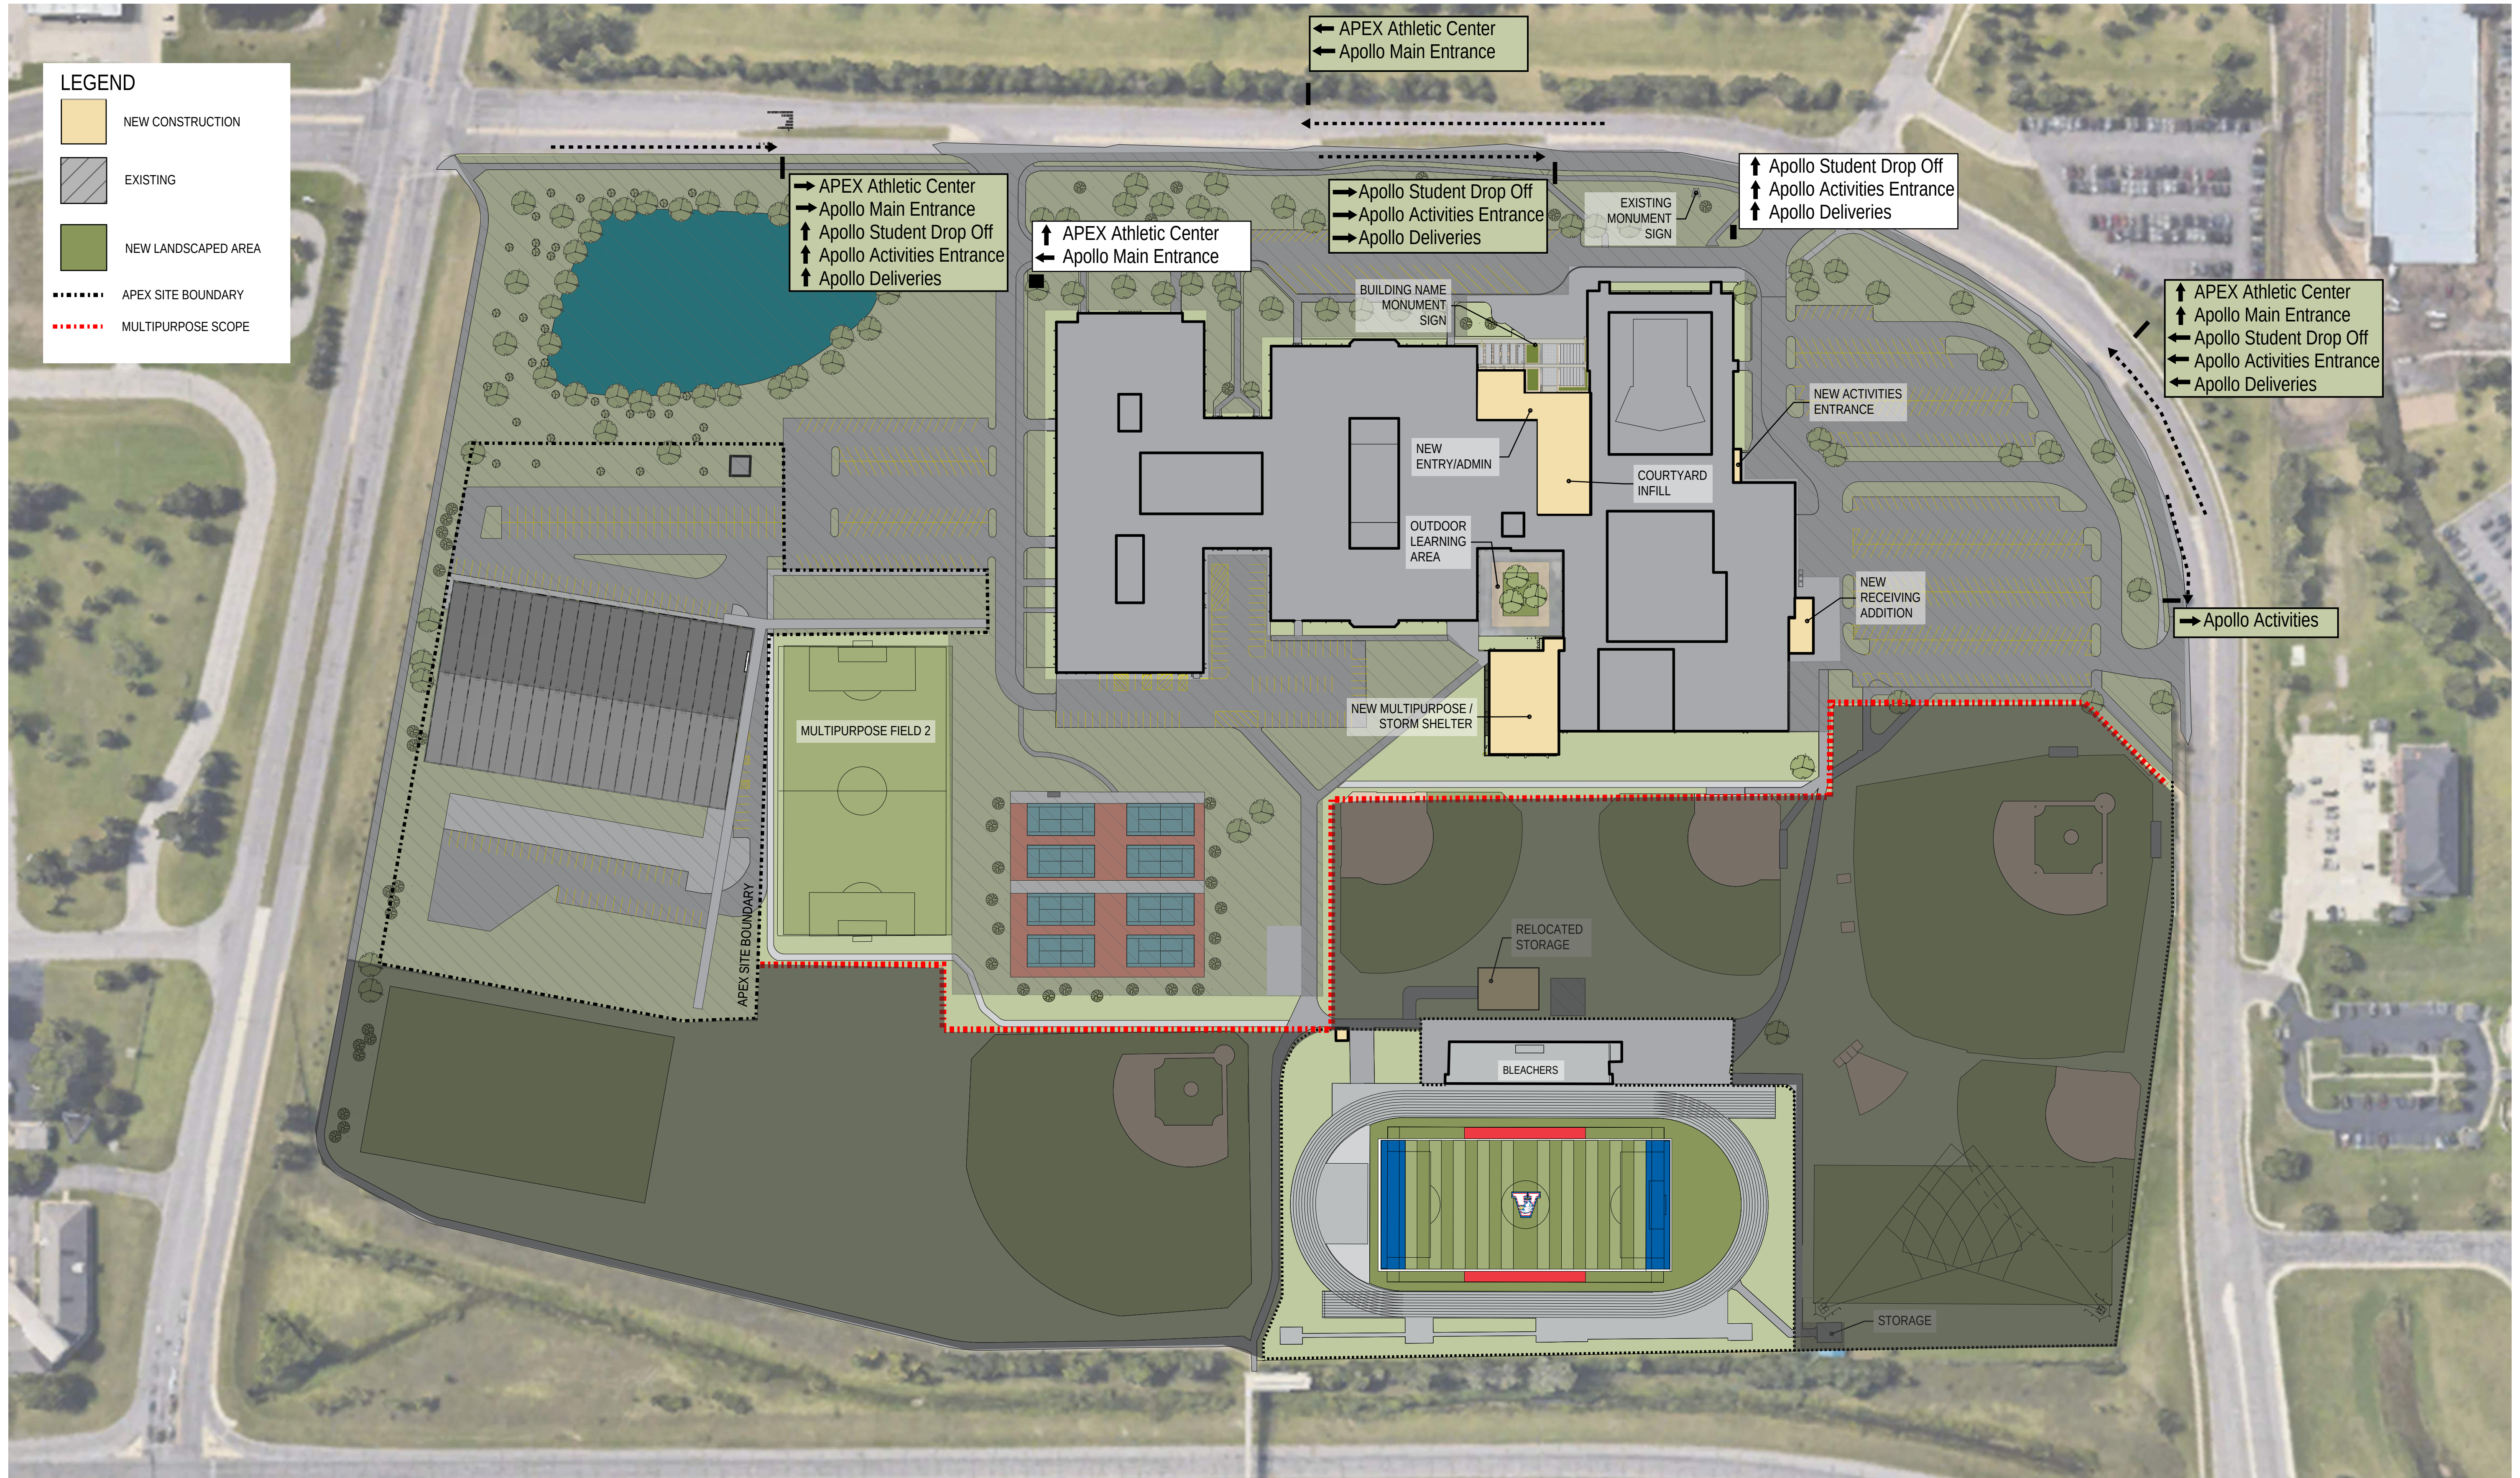

Shifting towards competency-based and performance-based evaluations to measure progress and academic outcomes.

APOLLO HIGH SCHOOL ADDITIONS & REMODELING

WHERE ARE WE NOW?

- EMR/EMT Lab starting construction
- Awarded contract to Precast Supplier to meet submittal requirements for plan review and permitting
- Continuing to complete construction documents for the remainder of the building. No major scope changes have been identified.
- Site programming for activities and fields for future bid package.
- Furniture & Equipment programming for the new spaces has started and will continue into the fall.

CONSTRUCTION PHASING

- Continuous 2 year process
 - Multiple phases throughout school year required to complete the work.
 - Certain spaces can only be done during summer months, while others can be completed during the school year.
- Coordinated with design team and construction manager to complete the work in the allotted timeline (August 2026 - August 2028)
- Coordinated with school administration to not disrupt student learning and maintain safety & security.

For more information on the construction phasing, check out the District website:
