Content Area: ASL I

Introduction / Philosophy:

The study of world languages benefits all students by fostering academic success, cognitive flexibility, increased access to information from other content areas, employment opportunities, and the ability to function more effectively with understanding and respect in all environments encountered in their lives.

Mission:

World languages education provides learners with the essential language skills and cultural understandings in languages other than English necessary to live and work in a global, culturally diverse world.

Vision:

An education in world languages fosters a population that:

- Cultivates communication and cultural understanding in more than one language with the levels of language proficiency that are required to function in a variety of occupations and careers in the contemporary workplace;
- Exhibits attitudes, values, and skills that indicate a positive disposition and understanding of cultural differences and that enhances cross-cultural communication;
- Participates in local and global communities with people who speak languages other than English to address social issues and other global problems; and
- Values language learning for its long-term worth in advancing personal, work-related, and/or financial success in our increasingly interconnected world.

PRE-UNIT: Introduction to ASL

Duration: 45 days

Suggested Accommodations

Multilingual Language Learners:

- Flexible/Cooperative Grouping
- Visuals (Board and handouts)
- Alternative Assessments (Listening and verbal)
- Flashcards (Digital and paper)
- Modified Instructions/Assessments/Assignments
- Teacher Tutoring

Special Education/Students with Disabilities:

- Provide differentiated instruction as needed
- Modify assignments and homework
- Follow all IEP modifications plans
- Provide manipulatives or the opportunity to draw solution strategies

Lakewood Public School District Curriculum Guide

Grade: 9-12

Content Area: ASL I

- Allow extra time to complete assignments or tests
- Work in a small group
- Allow answers to be given orally or dictated

504 Plans:

- Provide differentiated instruction as needed
- Follow all 504 plan modifications
- Provide manipulatives or the opportunity to draw solution strategies
- Allow Extra Time
- Work in a Small Group
- Allow Answers to be given orally or dictated.

Gifted and Talented:

- Tiered assignments
- Independent study and research
- Acceleration (according to student's level of ability rather than chronological age)

Students at Risk of Failure:

- Pair with adult mentor or buddy
- Provide in-school counseling
- Refer to outside counseling or similar resources if necessary
- Ensure the child has access to all appropriate academic resources both in school and at home
- Provide structure and adhere to a consistent daily routine with clear and concise rules
- Facilitate successful experiences
- Provide tutoring if needed
- Provide cooperative learning activities
- Provide assistance with the organization of school/home materials
- Reinforce positive behaviors and recognize student talents
- Help parents become familiar with available services and resources

Economically Disadvantaged:

- Extra Materials Provided
- Set of Books Sent Home
- Study Guides Gifted and Talented
- Alternative Assessments/Assignments
- Rubrics
- Introduce Students to Higher Level Vocabulary
- Differentiate learning pace using curriculum acceleration

Culturally Diverse:

- Embrace diversity in teaching styles
- Provide an interpreter
- Incorporate more group work

Disciplinary Concepts and Core Ideas	
Interpretive Mode of Communication	In the Interpretive mode of communication, students demonstrate understanding of spoken and written communication within appropriate cultural contexts. Examples of this kind of one-way reading or listening include cultural interpretations of printed texts, videos, online texts, movies, radio and television broadcasts, and speeches. Beyond the Novice level, “interpretation” differs from “comprehension” because it implies the ability to read or listen “between the lines” and “beyond the lines.”
Interpersonal Mode of Communication	In the Interpersonal mode of communication, students engage in direct oral and/or written communication with others. Examples of this “two-way” communication include conversing face-to-face, participating in online discussions or videoconferences, instant messaging and text messaging, and exchanging personal letters or e-mail messages.
Presentational Mode of Communication	In the Presentational mode of communication, students present, orally and/or in writing, information, concepts and ideas to an audience of listeners or readers with whom there is no immediate interaction. Examples of this one-to-many mode of communication include a presentation to a group, posting an online video or webpage, creating and posting a podcast or videocast, and writing an article for a newspaper.

Career Readiness, Life Literacies, and Key Skills Practices	
Act as a responsible and contributing community member and employee.	Students understand the obligations and responsibilities of being a member of a community, and they demonstrate this understanding every day through their interactions with others. They are conscientious of the impacts of their decisions on others and the environment around them. They think about the near-term and long-term consequences of their actions and seek to act in ways that contribute to the betterment of their teams, families, community and workplace. They are reliable and consistent in going beyond the minimum expectation and in participating in activities that serve the greater good.
Attend to financial well-being.	Students take regular action to contribute to their personal financial well-being, understanding that personal financial security provides the peace of mind required to contribute more fully to their own career success.
Consider the environmental, social and economic impacts of decisions.	Students understand the interrelated nature of their actions and regularly make decisions that positively impact and/or mitigate negative impact on other people, organization, and the environment. They are aware of and utilize new technologies, understandings, procedures, materials, and regulations affecting the nature of their work as it relates to the impact on the social condition, the environment and the profitability of the organization.

Lakewood Public School District Curriculum Guide

Grade: 9-12	Content Area: ASL I
--------------------	----------------------------

<p>Demonstrate creativity and innovation.</p>	<p>Students regularly think of ideas that solve problems in new and different ways, and they contribute those ideas in a useful and productive manner to improve their organization. They can consider unconventional ideas and suggestions as solutions to issues, tasks or problems, and they discern which ideas and suggestions will add greatest value. They seek new methods, practices, and ideas from a variety of sources and seek to apply those ideas to their own workplace. They take action on their ideas and understand how to bring innovation to an organization.</p>
<p>Utilize critical thinking to make sense of problems and persevere in solving them.</p>	<p>Students readily recognize problems in the workplace, understand the nature of the problem, and devise effective plans to solve the problem. They are aware of problems when they occur and take action quickly to address the problem; they thoughtfully investigate the root cause of the problem prior to introducing solutions. They carefully consider the options to solve the problem. Once a solution is agreed upon, they follow through to ensure the problem is solved, whether through their own actions or the actions of others.</p>
<p>Model integrity, ethical leadership and effective management.</p>	<p>Students consistently act in ways that align personal and community-held ideals and principles while employing strategies to positively influence others in the workplace. They have a clear understanding of integrity and act on this understanding in every decision. They use a variety of means to positively impact the directions and actions of a team or organization, and they apply insights into human behavior to change others' actions, attitudes and/or beliefs. They recognize the near-term and long-term effects that management's actions and attitudes can have on productivity, morals and organizational culture.</p>
<p>Plan education and career paths aligned to personal goals.</p>	<p>Students take personal ownership of their own education and career goals, and they regularly act on a plan to attain these goals. They understand their own career interests, preferences, goals, and requirements. They have perspective regarding the pathways available to them and the time, effort, experience and other requirements to pursue each, including a path of entrepreneurship. They recognize the value of each step in the education and experiential process, and they recognize that nearly all career paths require ongoing education and experience. They seek counselors, mentors, and other experts to assist in the planning and execution of career and personal goals.</p>
<p>Use technology to enhance productivity, increase collaboration and communicate effectively.</p>	<p>Students find and maximize the productive value of existing and new technology to accomplish workplace tasks and solve workplace problems. They are flexible and adaptive in acquiring new technology. They are proficient with ubiquitous technology applications. They understand the inherent risks-personal and organizational-of technology applications, and they take actions to prevent or mitigate these risks.</p>
<p>Work productively in teams while using cultural/ global competence.</p>	<p>Students positively contribute to every team, whether formal or informal. They apply an awareness of cultural differences to avoid barriers to productive and positive interaction. They find ways to increase the engagement and contribution of all team members. They plan and facilitate effective team meetings.</p>

	consistent in going beyond the minimum expectation and in participating in activities that serve the greater good.
Attend to financial well-being.	Students take regular action to contribute to their personal financial well-being, understanding that personal financial security provides the peace of mind required to contribute more fully to their own career success.
Consider the environmental, social and economic impacts of decisions.	Students understand the interrelated nature of their actions and regularly make decisions that positively impact and/or mitigate negative impact on other people, organization, and the environment. They are aware of and utilize new technologies, understandings, procedures, materials, and regulations affecting the nature of their work as it relates to the impact on the social condition, the environment and the profitability of the organization.
Demonstrate creativity and innovation.	Students regularly think of ideas that solve problems in new and different ways, and they contribute those ideas in a useful and productive manner to improve their organization. They can consider unconventional ideas and suggestions as solutions to issues, tasks or problems, and they discern which ideas and suggestions will add greatest value. They seek new methods, practices, and ideas from a variety of sources and seek to apply those ideas to their own workplace. They take action on their ideas and understand how to bring innovation to an organization.
Utilize critical thinking to make sense of problems and persevere in solving them.	Students readily recognize problems in the workplace, understand the nature of the problem, and devise effective plans to solve the problem. They are aware of problems when they occur and take action quickly to address the problem; they thoughtfully investigate the root cause of the problem prior to introducing solutions. They carefully consider the options to solve the problem. Once a solution is agreed upon, they follow through to ensure the problem is solved, whether through their own actions or the actions of others.
Model integrity, ethical leadership and effective management.	Students consistently act in ways that align personal and community-held ideals and principles while employing strategies to positively influence others in the workplace. They have a clear understanding of integrity and act on this understanding in every decision. They use a variety of means to positively impact the directions and actions of a team or organization, and they apply insights into human behavior to change others' actions, attitudes and/or beliefs. They recognize the near-term and long-term effects that management's actions and attitudes can have on productivity, morals and organizational culture.
Plan education and career paths aligned to personal goals.	Students take personal ownership of their own education and career goals, and they regularly act on a plan to attain these goals. They understand their own career interests, preferences, goals, and requirements. They have perspective regarding the pathways available to them and the time, effort, experience and other requirements to pursue each, including a path of entrepreneurship. They recognize the value of each step in the education and experiential process, and they recognize that nearly all career paths require ongoing education and experience. They seek counselors, mentors, and other experts to assist in the planning and execution of career and personal goals.

<p>Use technology to enhance productivity, increase collaboration and communicate effectively.</p>	<p>Students find and maximize the productive value of existing and new technology to accomplish workplace tasks and solve workplace problems. They are flexible and adaptive in acquiring new technology. They are proficient with ubiquitous technology applications. They understand the inherent risks-personal and organizational-of technology applications, and they take actions to prevent or mitigate these risks.</p>
<p>Work productively in teams while using cultural/global competence.</p>	<p>Students positively contribute to every team, whether formal or informal. They apply an awareness of cultural differences to avoid barriers to productive and positive interaction. They find ways to increase the engagement and contribution of all team members. They plan and facilitate effective team meetings.</p>

<p>Enduring Understandings:</p> <ul style="list-style-type: none"> ● Fingerspelling is a functional communication tool, not a substitute for signs. It is used strategically for specific purposes such as proper nouns (names of people, places, brands), technical vocabulary, and clarification, not for all words. ● Context, Configuration, and Closure (the "3 Cs") are essential receptive skills. Proficiently reading fingerspelling involves using conversational context, recognizing the overall handshape and movement patterns of the word (configuration) rather than individual letters, and using prediction skills to fill in any missed letters (closure). ● Numerical systems are a fundamental part of ASL grammar. Unit 2: Exchanging Personal Information

Duration: 45 days

Unit Rationale

Students will have the opportunity to exchange personal information and narrate personal experiences using signs, gestures, and body language. Students will engage in communication simulations to practice and apply receptive and productive communication skills.

In this unit, students will learn to communicate personal information. They will learn the cardinal numbers, up to #29, as well as identify people, location, and three types of shapes. Students will also learn how to fingerspell Up letters and double letters.

Disciplinary Concepts and Core Ideas

Interpretive Mode of Communication	In the Interpretive mode of communication, students demonstrate understanding of spoken and written communication within appropriate cultural contexts. Examples of this kind of one-way reading or listening include cultural interpretations of printed texts, videos, online texts, movies, radio and television broadcasts, and speeches. Beyond the Novice level, “interpretation” differs from “comprehension” because it implies the ability to read or listen “between the lines” and “beyond the lines.”
Interpersonal Mode of Communication	In the Interpersonal mode of communication, students engage in direct oral and/or written communication with others. Examples of this “two-way” communication include conversing face-to-face, participating in online discussions or videoconferences, instant messaging and text messaging, and exchanging personal letters or e-mail messages.
Presentational Mode of Communication	In the Presentational mode of communication, students present, orally and/or in writing, information, concepts and ideas to an audience of listeners or readers with whom there is no immediate interaction. Examples of this one-to-many mode of communication include a presentation to a group, posting an online video or webpage, creating and posting a podcast or videocast, and writing an article for a newspaper.

Unit Rationale
By understanding the importance of *context*, students will learn how facial expressions and body language enhance conversations. Students will practice and apply their skills by engaging in “facial expression activities”. In this unit, students will learn to tell where they live, describe their surroundings, and give basic directions around the classroom. Students will utilize facial communication skills and body language. They will continue to increase their fingerspelling and number identification.

Career Readiness, Life Literacies, and Key Skills Practices

Act as a responsible and contributing community member and employee.

Students understand the obligations and responsibilities of being a member of a community, and they demonstrate this understanding every day through their interactions with others. They are conscientious of the impacts of their decisions on others and the environment around them. They think about the near-term and long-term consequences of their actions and seek to act in ways that contribute to the betterment of their teams, families, community and workplace. They are reliable and consistent in going beyond the minimum expectation and in participating in activities that serve the greater good.

Attend to financial well-being.	Students take regular action to contribute to their personal financial well-being, understanding that personal financial security provides the peace of mind required to contribute more fully to their own career success.
Consider the environmental, social and economic impacts of decisions.	Students understand the interrelated nature of their actions and regularly make decisions that positively impact and/or mitigate negative impact on other people, organization, and the environment. They are aware of and utilize new technologies, understandings, procedures, materials, and regulations affecting the nature of their work as it relates to the impact on the social condition, the environment and the profitability of the organization.
Demonstrate creativity and innovation.	Students regularly think of ideas that solve problems in new and different ways, and they contribute those ideas in a useful and productive manner to improve their organization. They can consider unconventional ideas and suggestions as solutions to issues, tasks or problems, and they discern which ideas and suggestions will add greatest value. They seek new methods, practices, and ideas from a variety of sources and seek to apply those ideas to their own workplace. They take action on their ideas and understand how to bring innovation to an organization.
Utilize critical thinking to make sense of problems and persevere in solving them.	Students readily recognize problems in the workplace, understand the nature of the problem, and devise effective plans to solve the problem. They are aware of problems when they occur and take action quickly to address the problem; they thoughtfully investigate the root cause of the problem prior to introducing solutions. They carefully consider the options to solve the problem. Once a solution is agreed upon, they follow through to ensure the problem is solved, whether through their own actions or the actions of others.
Model integrity, ethical leadership and effective management.	Students consistently act in ways that align personal and community-held ideals and principles while employing strategies to positively influence others in the workplace. They have a clear understanding of integrity and act on this understanding in every decision. They use a variety of means to positively impact the directions and actions of a team or organization, and they apply insights into human behavior to change others' actions, attitudes and/or beliefs. They recognize the near-term and long-term effects that management's actions and attitudes can have on productivity, morals and organizational culture.
Plan education and career paths aligned to personal goals.	Students take personal ownership of their own education and career goals, and they regularly act on a plan to attain these goals. They understand their own career interests, preferences, goals, and requirements. They have perspective regarding the pathways available to them and the time, effort, experience and other requirements to pursue each, including a path of entrepreneurship. They recognize the value of each step in the education and experiential process, and they recognize that nearly all career paths require ongoing education and experience. They seek counselors, mentors, and other experts to assist in the planning and execution of career and personal goals.
Use technology to enhance productivity, increase collaboration and communicate effectively.	Students find and maximize the productive value of existing and new technology to accomplish workplace tasks and solve workplace problems. They are flexible and adaptive in acquiring new technology. They are proficient with ubiquitous technology

	applications. They understand the inherent risks-personal and organizational-of technology applications, and they take actions to prevent or mitigate these risks.
Work productively in teams while using cultural/global competence.	Students positively contribute to every team, whether formal or informal. They apply an awareness of cultural differences to avoid barriers to productive and positive interaction. They find ways to increase the engagement and contribution of all team members. They plan and facilitate effective team meetings.
