ACTFL Proficiency Guidelines 2012: Novice-Low	
Reading	At the Novice Low sublevel, readers are able to recognize a limited number of letters, symbols or characters. They are occasionally able to identify high-frequency words and/or phrases when strongly supported by context.
Writing	Writers at the Novice Low sublevel are able to copy or transcribe familiar words or phrases, form letters in an alphabetic system, and copy and produce isolated, basic strokes in languages that use syllabaries or characters. Given adequate time and familiar cues, they can reproduce from memory a very limited number of isolated words or familiar phrases, but errors are to be expected
Listening	At the Novice Low sublevel, listeners are able occasionally to recognize isolated words or very high-frequency phrases when those are strongly supported by context. These listeners show virtually no comprehension of any kind of spoken message, not even within the most basic personal and social contexts
Speaking	Speakers at the Novice Low sublevel have no real functional ability and, because of their pronunciation, may be unintelligible. Given adequate time and familiar cues, they may be able to exchange greetings, give their identity, and name a number of familiar objects from their immediate environment. They are unable to perform functions or handle topics pertaining to the intermediate level, and cannot therefore participate in true conversational exchange.
