

2026-2027 SCHOLARSHIP PROGRAM

INCOME VERIFICATION FORM

New EdChoice Expansion applicants will need to complete the income verification process, unless the family has previous household income on file. Income verification is *optional for renewal applications* in the EdChoice Expansion Scholarship program. If your annual household income or household size has changed, families may submit a new income verification application for the next school year. Families applying for low-income status in the EdChoice, EdChoice Expansion, or Cleveland program must submit new household income annually. To complete the Income Verification process, parents may submit online using the [secure Income Verification system](#) or complete and mail the paper form. Emailing documents is not permitted. Household Income will not be recalculated after the review has been completed. Helpful tips can be found on the scholarship website at [EdChoice Scholarship](#) or [Cleveland Scholarship](#).

The chart below may help you determine if you qualify for low-income status. Renewing EdChoice Expansion families will not need to complete the income verification process each year, unless they would like to have their household income verified for their award amount.

1	\$31,920

Adjusted Gross Income from line 11 of the federal income tax Form 1040 OR line 3 of the Ohio IT 1040 will be used to calculate household income and determine low-income status.

Household size is determined using the tax filers and dependents listed on the tax returns.
