PROJECT INFORMATION

PROPOSED IMPROVEMENT

Commercial Development

ENGINEER/APPLICANT:
 Willis High School

PROJECT CLASSIFICATION

Land Use: Commercial
 Work Class: Development Permit

NOTICES & REQUIREMENTS

The contractor must have copies of the following on the jobsite at all times: the Design Manual, the Standard Specifications for the Construction of Streets and Drainage, and the Standard Specifications for the Construction of Water and Sanitary Sewer.

The contractor must have copies of the following on the jobsite at all times: the Design Manual, the Standard Specifications for the Construction of Streets and Drainage, and the Standard Specifications for the Construction of Water and Sanitary Sewer.

PREREQUISITIONS

Pre- Construction Meeting • Pre-Clearing Inspection • MS4 Permit (if applicable) • Any Related Permits

AFFADAVIT OF PLAN APPROVALS

The Engineer/Developer hereby certifies that he/she will construct, or cause to be constructed, said development in compliance with all applicable laws, codes, ordinances, rules, and design criteria of the City of Conroe and any other federal, state, or local unit of government. Constructability and sound engineering practices remain the responsibility of the engineer of record. Development & Floodplain Permits shall become null and void after five (5) years from the date issued. The Engineer/Developer shall revise or provide additional plans if conditions in the field necessitate significant design changes (as determined by the City), and any revisions made to the approved plans must be submitted for review. Approved plans must be kept on-site at all times. Construction of the project is required to meet all City of Conroe guidelines prior to the requesting Initial Certification. When construction is complete, the Engineer/Developer will provide as-built drawings and certify that all required improvements were constructed according to the approved construction plans and applicable City standards.
