2024-2025 School Accountability Report Card (Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2025-26 School Description and Mission Statement

As a National Blue Ribbon and California Distinguished General Education and GATE Magnet School, Tustin Memorial Academy passionately believes that by focusing on the foundations of literacy (phonemic awareness, phonics, vocabulary, fluency, and comprehension) and mathematics through problem based instruction, in a character-building environment, we will produce strong readers, writers, problem solvers, thinkers, innovators, and responsible citizens. All students are provided with STEAM opportunities and experiences that promote critical thinking, collaboration, creativity, and communication as 21st-century learners. All students actively participate in school-wide events such as STEAM challenges, passion projects, and Genius Hour to support their creativity and learning. GATE strategies deepen critical thinking by focusing on the depth and complexity of the grade-level standards. The general education aspect of the school also holds high expectations for student

2025-26 School Description and Mission Statement

achievement and encourages critical thinking and a growth mindset. Local and state progress indicators and the CA Dashboard results provide ongoing data that drives instruction at all grade levels throughout the year. 88% of students at TMA met/exceeded grade-level standards in English language arts, and 89% met/exceeded grade-level standards in math on the 2024-25 CAASPP. TMA offers extra-curricular activities such as the Math Olympiad, Science Olympiad, robotics, Peer Assistance Leadership, Student Council, Star Squad, classroom performances, volleyball, chess, debate, basketball, Spanish, yoga, and coding.

There is a strong focus on the social-emotional needs of Tustin Memorial's students through mindfulness, social thinking practices, and the implementation of a social-emotional curriculum and its connection to academic achievement. Growth and innovative mindsets continue to be school-wide themes, and students are taught responsible and respectful behavior that builds relationships as outlined in the TMA Commitment Agreement. Our established garden, physical education program, service-learning, and student-led activities are integral to our school and school community. Our unwavering commitment and devotion to our students as leaders of tomorrow are represented by our school STAR logo depicting "Special, Talented, and Responsible" students and the school motto "Helping Our Scholars to Reach for the Stars and Beyond."

Tustin Memorial Academy is a "District School of Choice," which means all students who attend TMA are selected via lottery and attend our school through a transfer from their school of residence. Prospective families need to apply for a transfer, which can be accessed on our TUSD website, www.tustin.k12.ca.us, under the Families and Communities link. The transfer application window is in January each year.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2025-26 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Tustin Unified School District sets a high priority on ensuring that high-quality, standards-based textbooks and materials are available for every student to support instructional programs in the schools. Prior to adoption, the Tustin Unified School District conducts a thorough review of its curriculum to ensure that it is aligned with the California Standards for the Common Core.

District K-8 textbooks in the subjects of English language arts, mathematics, history/social science, health, foreign language, visual and performing arts, and science have been adopted from those approved by the State Board of Education. The Tustin Unified School District Board of Education has adopted district textbooks in the subjects listed below. K-12 textbooks for mathematics, history/social science, science, English language arts (including reading), and foreign language are aligned with state-adopted content standards and state or national frameworks. All TUSD students, including all English learners, have textbooks* and instructional materials, including science laboratory equipment at the 9-12 level, that are current and in good condition in accordance with Education Code requirements. All textbooks* and instructional materials are provided in sufficient quantities for each student for use in class and to access from home.

On September 29, 2025, the Tustin Unified School District Board of Education verified by resolution that each student at this school has a textbook and/or instructional materials for each core subject area that are aligned to the content and cycles of the curriculum framework adopted by the State of California.

*textbooks may be digital or hard copy depending on the textbook and adoption cycle

School Facility Conditions and Planned Improvements

The Tustin Unified School District takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, the District uses a facility survey instrument developed by the State of California Office of Public School Construction (OPSC). The results of this survey are available at the school office, the District office, or on the Internet at <https://tinyurl.com/TUSD-Facility-Inspection-Tool>. The District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

TMA was built in 1956 and retains its charm as part of an older and established neighborhood of ranch-style homes. School-wide beautification efforts by the school community and the district include extensive landscaping, resurfacing, and gardening to enhance curb appeal. In the summer of 2019, TMA received new carpet in every room throughout the campus and rooms were also freshly painted. A solar structure was installed in 2020 and provides an additional covered lunch area for our students. Visitors to TMA are welcomed by caring staff members and a well-maintained, inviting campus.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

Tustin Unified School District values our parents and community. We believe that parental engagement is integral to student success and one of our goals is to continuously increase parental involvement in our schools. In TUSD, parents receive regular emails from a Parent Square listserv that provides information on district and school-wide updates and events, available resources, training, opportunities, etc.

In addition to district-wide efforts, our school believes that parent involvement drives the daily learning for all students. Parents and credentialed teachers work together to review the core program, academic support, and supplemental learning opportunities available to students. Annually, parents have the opportunity to meet with their child's teacher and/or counselor and work together in the development of the student's educational plan and goal setting at the beginning of each school year. Additionally, parents always have the opportunity to communicate with the administrative team, teachers, counselors, and other school support staff.

All parents have the opportunity to be on our School Site Council or to attend the meetings. School Site Council members are elected for a two-year term and meet four times each year. The function of the School Site Council is two-fold: to provide feedback and advice to the School Plan for Student Achievement, as well as suggestions and ideas for improving the school's educational programs; and to uphold the mission of the school and contribute to the success of the school. Parents of EL students have access to our TUSD Office of Language Acquisition, site-based ELAC, and district DELAC committees to learn about the EL Program and the comprehensive support available to EL families. Parents of ELs can provide input into decisions related to English language acquisition at the ELAC and DELAC meetings.

For Special Education students, there is ongoing parental collaboration and support provided to the parent to ensure that their student's needs are met as part of the Individualized Education Program. Parents have access to special education support providers as well as special education department administration.

Tustin Memorial Academy is buzzing with parent volunteers daily. Our school has built a unique culture that includes strong parent partnerships. Every family signs a Commitment Agreement each year, which encourages at least 10 hours of volunteer work. Parents and family members volunteer in various capacities, including in classrooms, in the garden, during PE, in the library, in the office, at school events, or on the playground. Parents are actively involved in school activities such as Mother Daughter Tea, Guys Night, Family Reading and Movie Nights, Son Appreciation Night, Family Art Night, Family Lunches, Bingo Night, Farmer's Market Days, field trips, and other evening community events. Our weekly school-wide eNewsletter to parents provides many ways for every family to be involved in some way. Our unique dads' group, HEROES (Helping Enrich the Resources of Every Student), emphasizes getting fathers, uncles, and grandparents involved in school activities. The HEROES have been recognized by the Orange County Department of Education for their unique program and received a Golden Bell Award from the California School Boards Association for their innovative techniques of getting male relatives involved in school and providing additional resources for students. Communication among parents, students, and teachers is a high priority at TMA, and we strive to build a strong support system to help our students succeed. A weekly e-blast provides parents with school updates, upcoming events, and parenting strategies. TMA prides itself on its strong collaboration with parents to provide a unique and supportive environment for all students.

For more information on how to get involved at the school, please contact our principal, Brooke Carreras, or our office coordinator, Sophie Han, at (714) 730-7546. You can also find volunteer/parent engagement opportunities on our PTO website at www.tmapto.org.

2025-26 School Safety Plan

Date Last Reviewed by School Site Council (SSC): 12/3/2025

Date Updated and Approved by SSC: 12/2/2025

Date Discussed by Staff: 8/8/2025

Our School Safety Plan includes comprehensive measures designed to promote a secure and orderly learning environment. Key components of the plan include child abuse reporting procedures; routine and emergency disaster procedures; suspension, expulsion, and mandatory expulsion recommendations; procedures for notifying teachers of dangerous pupils; discrimination and harassment policies; provisions for any school-wide dress code; procedures for safe ingress and egress; standards for maintaining a safe and orderly environment; school discipline rules and dress code expectations; hate crime reporting protocols; and clearly defined school safety goals and objectives, which include an Instructional Continuity Plan.

At TMA, we also maintain a School Safety Committee via our School Site Council that annually reviews and updates the School Safety Plan and coordinates annual safety drills for all students and staff. The committee includes administrators, certificated and classified staff, and may also include parent or student representatives. During the 2023–24 school year, all TUSD schools participated in Stop the Bleed training, which prepares school sites to respond to a bleeding emergency before professional help arrives. In the 2025-26 school year, we conducted a review of Stop the Bleed procedures and completed annual health and safety training. Staff also received Narcan training, which teaches participants to recognize the signs of an opioid overdose and administer the reversal medication Narcan.

Additionally, in collaboration with our Student Services Department, we continuously practice emergency response procedures for fire, earthquake, lockdown, and shelter-in-place scenarios. These drills ensure that district-wide expectations for school safety are being met and safety teams are familiar with their roles and responsibilities, and with the location and use of emergency supplies and equipment.

Fiscal Year 2024-25 Types of Services Funded

In addition to base per pupil funding, our school receives supplemental one time and ongoing funds to support all students and student groups in academic achievement. The Tustin Public Schools Foundation and site PTO/PTA also supports the school with donations and financial contributions throughout the year to support school-wide programs and events for students.

The School Plan for Student Achievement (SPSA) identifies student needs and addresses specifically how these categorical funds will support student learning and achievement through a Multi-Tiered System of Support. The allocated funds are used to provide tiered and targeted supports or interventions for unduplicated students in the areas of academics, behavior and social-emotional learning, absenteeism, professional development, instructional materials, additional personnel to support all students in accessing academic standards, and technology resources.

Students are administered local assessments three times per year, and more often if they score at-risk and are monitored for progress. Within the MTSS model, students scoring two or more grade levels below their current grade level on any standard were eligible for intervention and targeted academic support. Our intervention students are provided class-based or small-group intervention sessions which target their specific performance level, focusing on ELA or Math standards. In addition, using

ESSER and categorical instructional funds, our students and their teachers have a variety of supplemental print and online intervention curriculum options to choose from. Some of these district and school-wide programs include Lexia, Freckle, Lexia English, and ST Math.

The TMA Parent Teacher Organization (PTO) provides extensive funding to support enrichment programs in art, music, math, science, performing arts, and STEAM, as well as resources to support technology, the Organic Garden and Nature Center, the library, classroom support, as well as counseling and physical education personnel.

Please refer to our district LCAP or School Plan for Student Achievement for a more detailed list of goals and actions that the school currently funds.

Professional Development

Tustin Unified School District provides dedicated time for professional development for all staff. The comprehensive training takes place before the school year starts, providing teachers with current best practices and opportunities for collaboration around instruction/curriculum for the upcoming year with site and district colleagues. An all-district professional development day is also provided on a non-student day in the fall, focusing on any current instructional or organizational professional learning needs at the time. Schools often provide additional professional development time based on specific school-site scheduling and budgetary decisions. The District provides intensive workshops in August during the week before school starts to provide teachers with new knowledge and enhanced skills for the upcoming year. Staff development opportunities are also offered after school and during release time throughout the school year. New teachers are provided an extensive new teacher training program throughout the year to support their implementation of effective instruction. All new teachers engage in the Induction Program through OCDE, which provides new teachers with ongoing support through the first two years of teaching.

At TMA, teachers participate in Professional Learning Communities regularly with their grade levels to analyze data and plan collaboratively based on school-wide accountability, district goals, and Common Core Standards. Grade-level teams analyze student performance data and adjust curriculum and long-range lesson plans to meet the needs of all students throughout the year. During the 2024-25 school year, the staff is participating in Universal Design for Learning Professional Development. This training provides teachers the knowledge and support needed to foster student agency through engagement, knowledge/skill representation, and expressing student learning. This year, staff is engaging in professional development in problem-based mathematics instruction. Teachers at TMA have the opportunity to attend the OC or CA GATE Conference yearly to extend their knowledge of current GATE instructional strategies. The Leadership Team and PBIS Team meet monthly to discuss school-wide data, practices, and systems to support academic learning and character development. New teachers and mentor teachers are provided with specific professional development through the District's Induction Program, which is directed to their

specific needs. Support staff receives professional development relevant to their roles through the District Office.
