## 2024-2025 School Accountability Report Card

(Published During the 2025-2026 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

<b>Admission Requirements for the University of California (UC)</b>	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <a href="https://admission.universityofcalifornia.edu/">https://admission.universityofcalifornia.edu/</a> .
<b>Admission Requirements for the California State University (CSU)</b>	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <a href="https://www2.calstate.edu/">https://www2.calstate.edu/</a> .

### 2025-26 School Description and Mission Statement

Located on 21.85 acres within the city of Tustin, Columbus Tustin was established in 1959 as the first intermediate school in the TUSD. It was named after the founder of the city of Tustin. Columbus Tustin, or CT as it is known by the local community. CT currently serves over 550 students, 85% Socioeconomically Disadvantaged, 16% Students with Disabilities and 32% English Learners. Columbus Tustin Middle School is a positive and supportive learning community where we empower all students with the skills and knowledge to become inquisitive, principled learners who create a more peaceful world through global awareness, critical thinking, and a commitment to action and service. At Columbus Tustin Middle School, we believe that all students will become leaders of the P.A.C.K. by demonstrating:

## 2025-26 School Description and Mission Statement

Pride - in themselves, their learning, our school, and the community.  
Achievement - by being organized and putting forth their best effort.  
Character - by being principled and acting with compassion.  
Knowledge - through independent and creative thinking

At Columbus Tustin, in order to monitor student progress, we regularly meet as Professional Learning Community teams to review state assessment data, as well as local data such as teacher and district level common formative and summative assessments. Analysis of state and local assessment data indicates an ongoing need to target support for our achievement gap subgroups. To that end, targeted support for our English learner students will continue to be a school-wide focus. Grade-level teams of teachers utilize weekly early out Wednesday time in the afternoon to collaboratively analyze the results of common assessments and use that data to provide students additional time and support towards meeting grade-level standards. The teams also utilize their data analysis to revise curriculum in a cycle of continuous improvement.

Columbus Tustin is a National AVID Demonstration School and offers a comprehensive Pre-International Baccalaureate Magnet Program. We provide a school-wide tutorial period embedded in our weekly schedule to provide both intervention and enrichment opportunities to all students. Additional school-wide programs include Reading Intervention Classes, Systematic ELD instruction, Study Skills Classes, Homework and Math Academy, as well as Catalyst Kids, which provides after-school academic support and enrichment.

## 2025-26 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Tustin Unified School District sets a high priority on ensuring that high-quality, standards-based textbooks and materials are available for every student to support instructional programs in the schools. Prior to adoption, the Tustin Unified School District conducts a thorough review of its curriculum to ensure that it is aligned with the California Standards for the Common Core.

District K-8 textbooks in the subjects of English language arts, mathematics, history/social science, health, foreign language, visual and performing arts, and science have been adopted from those approved by the State Board of Education. The Tustin Unified School District Board of Education has adopted district textbooks in the subjects listed below. K-12 textbooks for mathematics, history/social science, science, English language arts (including reading), and foreign language are aligned with state-adopted content standards and state or national frameworks. All TUSD students, including all English learners, have textbooks\* and instructional materials, including science laboratory equipment at the 9-12 level, that are current and in good condition in accordance with Education Code requirements. All textbooks\* and instructional materials are provided in sufficient quantities for each student for use in class and to access from home.

On September 29, 2025, the Tustin Unified School District Board of Education verified by resolution that each student at this school has a textbook and/or instructional materials for each core subject area that are aligned to the content and cycles of the curriculum framework adopted by the State of California.

\*textbooks may be digital or hard copy depending on the textbook and adoption cycle

## School Facility Conditions and Planned Improvements

The Tustin Unified School District takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, the District uses a facility survey instrument developed by the State of California Office of Public School Construction (OPSC). The results of this survey are available at the school office, the District office, or on the Internet at <https://tinyurl.com/TUSD-Facility-Inspection-Tool>. The District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

Columbus Tustin Middle School is located on 21.85 acres within the city of Tustin and was established in 1959 as the first intermediate school in the Tustin Unified School District. Students and staff are proud of Columbus Tustin Middle School and take good care of the facility. The school is attractive, clean, and well-maintained by a conscientious custodial staff. All buildings and portable classrooms are in good working condition. The facilities include a multipurpose room and activities center where many District, community, and site performances, workshops, parent and student meetings, special assemblies, and concerts take place. The school's large, grass-covered sports fields serve as a hub of school and community athletic events after school and on weekends. During the 2017-18 school year, a solar project was completed which included the installation of solar panels on two covered parking lots. In 2018 and 2020 two large murals were completed in the lunch quad and blacktop areas to promote our school mascot and motto.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

#### College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

<b>Mathematics</b> (grades 3-8 and 11)	34	29	52	53	35	37

## 2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

### B. Pupil Outcomes

#### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

## 2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Grade Level	Component 1: Aerobic Capacity	Component 2: Abdominal Strength and Endurance	Component 3: Trunk Extensor and Strength and Flexibility	Component 4: Upper Body Strength and Endurance	Component 5: Flexibility
Grade 7	94.8%	95.3%	94.2%	94.8%	94.8%

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2025-26 Opportunities for Parental Involvement

Tustin Unified School District values our parents and community. We believe that parental engagement is integral to student success and one of our goals is to continuously increase parental involvement in our schools. In TUSD, parents receive regular emails from a Parent Square listserv that provides information on district and school-wide updates and events, available resources, training, opportunities, etc.

In addition to district-wide efforts, our school believes that parent involvement drives the daily learning for all students. Parents and credentialed teachers work together to review the core program, academic support, and supplemental learning opportunities available to students. Annually, parents have the opportunity to meet with their child's teacher or counselor and work together in the development of the student's educational plan and goal setting at the beginning of each school year. Additionally, parents always have the opportunity to communicate with the administrative team, teachers, counselors, and other school support staff when the need arises.

All parents have the opportunity to be on our School Site Council or to attend the meetings. School Site Council members are elected for a two-year term and meet a minimum of four times per year. The function of the School Site Council is two-fold: to provide feedback and advice to the School Plan for Student Achievement, as well as suggestions and ideas for improving the school's educational programs; and to uphold the mission of the school and contribute to the success of the school. Parents of EL students have access to our TUSD Office of Language Acquisition, site-based ELAC, and district DELAC committees to learn about the EL Program and the comprehensive support available to EL families. Parents of ELs are able to provide input into decisions related to English language acquisition at the ELAC and DELAC meetings.

For Special Education students, there is ongoing parental collaboration and support provided to the parent to ensure that their student's needs are met as part of the Individualized Education Program. Parents have access to special education support providers as well as special education department administration.

As a community school, Columbus Tustin Middle School is committed to building genuine relationships with all stakeholders. We strive to ensure that every voice is heard and that the needs of our students remain at the center of our work. Over the past two years, we have been intentional in creating opportunities for engagement and support. One major step we have taken is conducting a comprehensive needs and assets assessment, developed by the TUSD Community Specialist, to gather data that guides our decisions. We have prioritized gathering community input through various channels, including SSC and ELAC meetings, staff meetings, and the Community Outreach Committee. This committee, made up of leadership students and our community specialist, provides students with a meaningful voice in planning activities and initiatives that support the wider community. We have also created a Community Room, which is a cornerstone of our campus—a safe, welcoming hub that provides food, resources, and a space for connection. We remain committed to fully supporting our community with authentic family opportunities for engagement.

We have a Community Specialist, Community Liaison, Social worker and Counselors dedicated to supporting our students and community. Any parent interested in receiving services, support or information about becoming involved at CTMS may contact our Community Specialist, Jorge Osorio at 714-730-7352.

## 2025-26 School Safety Plan

Date Last Reviewed by School Site Council (SSC): 12/01/2025

Date Updated and Approved by SSC: 12/01/2025

Date Discussed by Staff: 08/08/2025

Our School Safety Plan includes comprehensive measures designed to promote a secure and orderly learning environment. Key components of the plan include child abuse reporting procedures; routine and emergency disaster procedures; suspension, expulsion, and mandatory expulsion recommendations; procedures for notifying teachers of dangerous pupils; discrimination and harassment policies; provisions for any school-wide dress code; procedures for safe ingress and egress; standards for maintaining a safe and orderly environment; school discipline rules and dress code expectations; hate crime reporting protocols; and clearly defined school safety goals and objectives, which include an Instructional Continuity Plan.

At Columbus Tustin Middle School, we also maintain a School Safety Committee that annually reviews and updates the School Safety Plan and coordinates annual safety drills for all students and staff. The committee includes administrators, certificated and classified staff, and may also include parent or student representatives. During the 2023–24 school year, all TUSD schools participated in Stop the Bleed training, which prepares school sites to respond to a bleeding emergency before professional help arrives. In the 2025-26 school year, we conducted a review of Stop the Bleed procedures and completed annual health and safety trainings. Staff also received Narcan training, which teaches participants to recognize the signs of an opioid overdose and administer the reversal medication Narcan.

A door camera/intercom security system is located at our main entrance to the Administration building; this is a security monitoring system that our office staff manages during the school day. Once school starts, office doors are locked; any visitors to campus must ring the doorbell and wait to be buzzed into the office. Additionally, in collaboration with our Student Services Department, we continuously practice emergency response procedures for fire, earthquake, lockdown, and shelter-in-place scenarios. These drills ensure that district-wide expectations for school safety are being met and safety teams are familiar with their roles and responsibilities and with the location and use of emergency supplies and equipment.

## 2022-23 Secondary Average Class Size and Class Size Distribution

This table displays the 2022-23 average class size and class size distribution. The columns titled “Number of Classes” indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Subject	Average Class Size	Number of Classes with 1-22 Students	Number of Classes with 23-32 Students	Number of Classes with 33+ Students

## Fiscal Year 2024-25 Types of Services Funded

In addition to the base per-pupil funding, Columbus Tustin Middle School receives both one-time and ongoing supplemental funds aimed at enhancing academic achievement for all students and specific student groups. The school also benefits from Title I categorical funding, allocated based on unduplicated student counts. These funds are in addition to our base funding and help support the diverse needs of all students. Furthermore, we are extremely grateful for the generous donations provided by the Tustin Public Schools Foundation and our site's PTO/PTA. These contributions provide valuable support throughout the year, enabling us to offer a wide range of school-wide programs and events for our students.

The School Plan for Student Achievement (SPSA) identifies student needs and addresses specifically how these categorical funds will support student learning and achievement through a Multi-Tiered System of Support. The allocated funds are used to provide tiered and targeted supports or interventions for unduplicated students in the areas of academics, behavior and social-emotional learning, absenteeism, professional development, instructional materials, additional personnel to support all students in accessing academic standards, and technology resources.

Students are assessed with local assessments three times per year, and more often if at-risk and being monitored for progress.

## Fiscal Year 2024-25 Types of Services Funded

Within the MTSS model, students scoring two or more grade levels below their current grade level on any standard were eligible for intervention and targeted academic support. Our intervention students are provided class-based or small-group intervention sessions which target their specific performance level, focusing on ELA or Math standards. In addition, using ESSER and categorical instructional funds, our students and their teachers have a variety of supplemental print and online intervention curriculum options to choose from.

Some of these district and school-wide programs include Lexia, Freckle, Lexia English, Orton-Gillingham, iXL and Nearpod intervention programs.

Please refer to our district LCAP or School Plan for Student Achievement for a more detailed list of goals and actions that the school currently funds.

## Professional Development

Tustin Unified School District provides dedicated time for professional development for all staff. The comprehensive training takes place before the school year starts, providing teachers with current best practices and opportunities for collaboration around instruction/curriculum for the upcoming year with site and district colleagues. An all district professional development day is also provided on a non-student day in the fall, focusing on any current instructional or organizational professional learning needs at the time.

Schools also provide professional development opportunities based on school-wide student needs driven by an analysis of student data and funded by site categorical or supplemental allocations. Staff development opportunities can take place before, during, or after school and by release time throughout the school year. All new teachers engage in the Induction Program through OCDE, which provides new teachers with ongoing support through the first two years of teaching.

As a school, we focus on providing ongoing professional development opportunities that are aligned with our student's needs. At Columbus Tustin Middle School, staff professional development efforts are focused on deepening the staff's implementation of research-based, highly effective instructional strategies. Our site-level professional development plan aligns with our School Plan for Student Achievement. The areas of focus for staff development are engaging and rigorous instructional strategies for English Learners, technology integration, and increasing instructional and formative assessment methods to align with Common Core State Standards. These areas were determined based on student achievement data and teacher survey data. In an effort to meet our goals with Professional Development, we have integrated tailored Professional Development opportunities before, during, and after school throughout the year. These efforts include teachers attending the AVID Summer Institute, TUSD summer trainings, ELD training, and technology training seminars.

## Professional Development

An administrator or district TOSA supports teachers during implementation and supports the facilitation of alternative forms of tailored Professional Development that include Achievement Team Visits for teachers to visit each other's classrooms throughout the year and Quarterly Planning Days for each Content Area to unpack standards, participate in data-driven dialogues, and create common assessments collectively. A Positive Behavior Intervention and Supports team was established in 2015-16 and is trained annually to further support student achievement and narrow the achievement gap. Our Middle School Academic Support Teachers work collaboratively with our administrative and counseling team and classroom teachers to help identify students who need additional assistance, attention, and support toward academic achievement.

We utilize Wednesday late-start mornings to provide staff with nearly 90 minutes of collaboration time. The meetings are formatted for professional development in-services, Tier 1 instructional conversations and planning, Professional Learning Community time, and/or classroom work/planning time.

This table displays the number of school days dedicated to staff development and continuous improvement.
