PSAT Scores Review

2025/2026

PSAT Scores

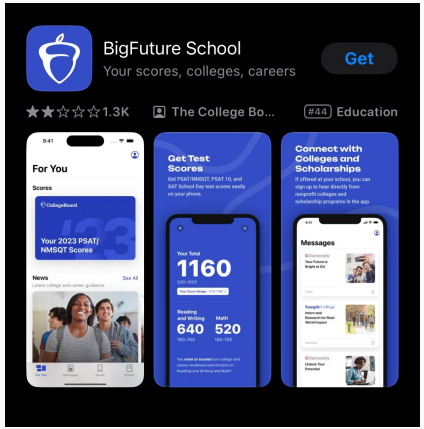

Step 1: Login or create a College Board account (use a personal email address); be sure the info you provide matches what is in Infinite Campus.

Step 2: If you provided a phone number when you took the PSAT, download the BigFuture School app. You can login and get your scores.

Step 3: Pass out hard copies of scores to the students.*

Step 4: Watch the video on the next slide.

*If for some reason a student doesn't receive a copy of their score, they can access their scores in the College Board app.

Understanding Your Digital PSAT/NMSQT® Score Report

PSAT Reminders and Next Steps

- The total score for PSAT/NMSQT ranges from 320 to 1520. It is the sum of your Math section score added to your Evidence-Based Reading and Writing section score.
- Review more details at satsuite.org/whatsnext
- Optional: for more details on score information: Click Here.

National Merit Scholarship*

*Only juniors can qualify for this.

- As a **sophomore**, if you scored a 1200 or higher, it is highly recommended you sign up to take the PSAT as a junior in the Fall.

- If you are a **junior** and you took the PSAT, you may have qualified to apply for the National Merit Scholarship. If you are not eligible (sophomores) or do not qualify, you will have an asterisk (*) next to your score. If you do qualify, you will not have anything next to your score. If you qualified, you will be contacted by NMSQT in September.

Need Score or Account Help

- If you don't receive your score or need to update any info once you login, you can call or email College Board.
- You may also try logging into the Big Future Mobile app: Click here.
