

## **Curriculum/TAG Committee – March 10, 2026**

*The Curriculum/TAG Committee met on March 10, 2026, to review District updates related to curriculum, instruction, student programming, and professional learning. The meeting included updates on the Talented and Gifted (TAG) program, proposed instructional and extracurricular offerings, and progress connected to the Comprehensive District Education Plan (CDEP). Committee members reviewed plans for Spring 2026 elementary TAG presentations, which will highlight student learning through LEGO League robotics and independent inquiry projects, as well as options for showcasing student work during the spring. The committee also discussed the continued development of new, student-centered electives rooted in authentic learning experiences, including Sports Journalism, Music as Poetry, and Intro to Agriculture, which demonstrated strong student interest at the Annual Elective Expo. In addition, updates were shared regarding approved and potential dual-enrollment opportunities with higher education partners. The committee also received a summary of recent CDEP work, including themes emerging from District data review and school improvement planning. These discussions emphasized belonging, authentic learning experiences, and communication and collaboration as grounding priorities for 2026–2027. Members reviewed proposed school improvement goals across buildings, with a focus on inclusive practices, student engagement, academic growth, and expanded opportunities for student voice and authentic demonstration of learning. Updates were also provided on curriculum and instruction priorities for the upcoming year, including strengthening math instruction, expanding ready-to-use ELA instructional resources, advancing project-based learning, and developing a District-wide vision for ethical and responsible use of artificial intelligence. The meeting concluded with a professional development update, highlighting planning for the May 8, 2026 Superintendent’s Conference Day and educator-identified areas of interest to support District goals. The next committee meeting is scheduled for April 28, 2026, at 3:30 p.m. in high school room #102.*
