# Denton Digital High School Original Credit - Course List

## Full-Time Virtual Program and Course Only Programs

This high school course list applies to both the **Denton Digital Full-Time Virtual Program** and the **Denton Digital Supplemental Original Credit Course Only** option. In both programs, the courses listed are offered for **original credit**, not credit recovery.

The **Denton Digital Supplemental Original Credit** option is a single-course virtual offering for students in grades 9–12 who wish to accelerate learning or create flexibility in their face-to-face schedules by earning original credit online. Students typically complete coursework independently outside the regular instructional day, though campuses may approve scheduled school-day time when available.

The **Denton Digital Full-Time Virtual Program** serves students who seek a fully virtual instructional experience while remaining connected to their home campus. High school students enroll in eight class periods each year, with the option to reserve one or two periods for on-campus participation in selected academic courses or electives when available. Juniors and seniors may qualify for dismissal periods in accordance with district guidelines. Sample Schedule:
