

The Economic Power of Bede's Senior School: National and Local Impact

Demonstrating the significant financial and social contribution Bede's Senior School makes to the UK economy and the Wealden local authority area. Data collated via Oxford Economics and the Independent Schools Council.

The Economic Engine: GDP Contribution

£50.3 Million
Total UK GDP Impact

Total value of goods and services produced in the UK economy supported by Bede's Senior School activities.

£24 Million
Injected Locally

48% of total GDP contribution stays within the Wealden local authority area, accounting for 0.98% of all local GDP.

Three Channels of Impact

Direct School Operations: **£20.1M**

UK Supply Chain Support (indirect): **£10M**

Staff Spending (induced): **£20.1M**

Public Benefit & Taxpayer Savings

£18.6 Million
in Total Tax Support

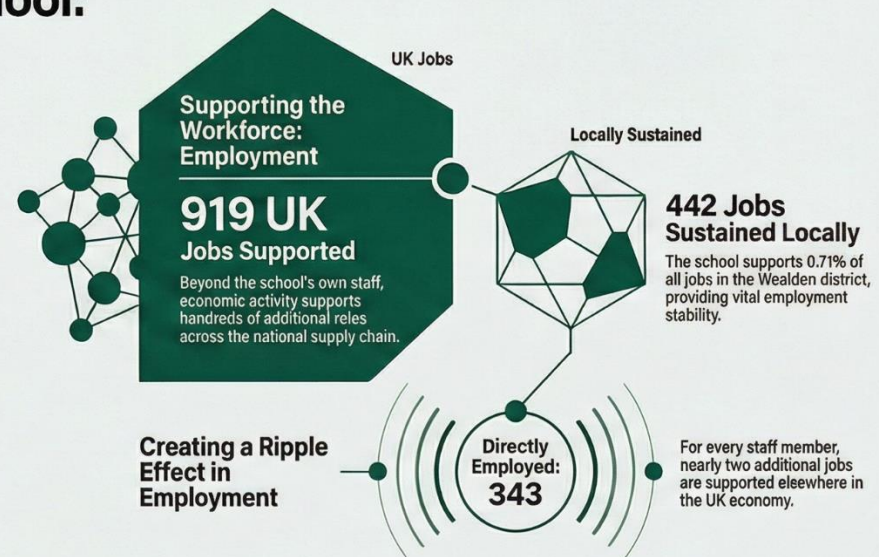

Includes VAT on fees, staff income tax, NI contributions, and business rates generated directly and through the supply chain.

£4.7 Million
Annual Taxpayer Savings

Total annual saving for the UK government because 615 pupils attend Bede's rather than taking up free UK state school places.

Direct Tax Contribution of £9.2M

Direct operations contribute nearly half of total tax impact through various levies and employer contributions.

Operational Snapshot (The Inputs)

Operating Income (Net): **£30,334,000**

Wages & Salaries: **£14,907,000**

Payments to Other Businesses: **£10,294,000**
