Please answer the following questions:

1. In addition to academics, how do you spend your free time? Include work, family, community and school activities you have been involved with over the past two years.

2. This award is for a graduating senior who has shown great passion for mathematics or has demonstrated extraordinary perseverance in mastering math to succeed at the college level. Applicants must be pursuing a college education in the field of STEM, business or math education. In 150 words or less elaborate what your relationship has been with math, math class, numbers, or math peers and how this connects with your future studies or career plans.
