Madeira Junior Aces ACT

Madeira High School (MHS) junior Luke Pease recently joined a unique group of students nationwide when he achieved a perfect composite score of 36 on the American College Testing (ACT) test.

The ACT evaluates what students have learned in high school to determine their academic readiness for college. Their composite score is the average of correct answers to 75 English questions, 60 mathematics questions, and 40 each of reading and science questions. Nearly 1.4 million students took the ACT last year, with an average composite score of 21 out of 36. A perfect score of 36 is rare, with only 0.25% attaining it.

Luke received the perfect score the first time he took the test in December. "I didn't think I'd do this well the first time," Luke said. "I thought it would be practice."

Luke is involved with Academic Team, Latin Club, Band, Model UN, and Theatre Arts Tech Crew at Madeira. He's considering going into environmental or political science after graduating from Madeira next year.
