Do you have any additional feedback or comments you would like to share with the Strategic Plan Team?

- While I don't disagree with what was put forward, I do not have enough information to know what this means to "fully support" this.
- My disagreement is with the word "safe." Unless we can create systemic change at the individual and institutional level and/or meaningfully change our society, we cannot guarantee a truly safe space for many of our most vulnerable students. Instead, we must strive to cultivate SAFER or BRAVER spaces, environments where dignity, accountability, and care guide our actions, even when safety cannot be perfectly guaranteed.
- No
- I do not
- This looks fantastic.
- Excellent plan!
- While I strongly support the Strategic Plan Recommendation, I feel as though the mission statement could use a minor adjustment where it reads, ""prepared to thrive in a changing world." I believe our table group suggested - "In an ever changing world" - it needs a little boost there.
- This is very impressive! Thank you to all the people who gave of their time and efforts to perfect it. It is much appreciated.
- No comment
- Will developmentally appropriate guidelines be part of curriculum rigor, technology/AI use and student screen time be part of this plan?
- I whole-heartedly stand behind this goal/mission, as should every teacher, but is there anything hidden agenda behind it? (AKA are we going to now grade learner characteristics because staff said yes to certain questions, etc.). I constantly feel like we are asked about our opinions, only to be surprised about a "new" agenda needed to be implemented the following year without any clarification or direction. Also, is SOUTH going to be doing this and whatever follows as a result of the survey?
