Miller Children's & Women's Hospital

Combating Springtime Allergies and Asthma

With spring in full bloom, allergy season is here – even though Southern California didn't see much rain this winter. While a drier season may mean fewer wildflowers, pollen from grass, trees, and other plants can still cause flare-ups. Additionally, dry and windy conditions can stir up dust and other airborne allergens, irritating the lungs and making it harder for children with allergies and asthma to breathe comfortably.

Although seasonal allergies and asthma can be challenging, there are several steps you can take to minimize your child's exposure and symptoms:

- Keep windows and doors closed. Close your home's windows and doors during high pollen days to prevent allergens from entering your home. You can also use an air purifier with a HEPA filter to keep the indoor air clean as well.
- Encourage regular hand washing. Show your child how washing their hands regularly helps remove allergens have encountered.
- Keep your home clean. Vacuum, dust, and clean your home regularly to remove any allergens that may have accumulated.
- Changing children's clothing after playing outside and bathing at night can also ensure your child doesn't sleep with pollen on them. Pets may carry pollen on them too, so keep pets that play outside out of your child's bedroom.
- If your child has received prescription medications for their allergies, make sure they are taking them regularly to help combat the severity of their allergies.

If your child's symptoms persist or worsen, seek medical advice from your child's pediatrician. Utilizing over-the-counter medications such as antihistamines and nasal sprays can be appropriate for a few days or weeks, but if symptoms continue, it is best to consult a healthcare provider. Remember, prevention is key when it comes to allergies and asthma. By taking the necessary precautions and following the tips mentioned above, you can help reduce allergy-related discomfort and keep your child feeling their best throughout the spring season.

Strong Partnerships, Stronger Futures

Dr. Julianne Hoefer
Superintendent

It is truly an honor to share that the Ocean View School District Board of Trustees has received the Blue Door Community Partnership Award from the Boys & Girls Club of Huntington Valley. Earlier this school year, the Boys & Girls Club of Huntington Valley announced this recognition, highlighting the strength of our partnership and the meaningful impact we make together on behalf of students.

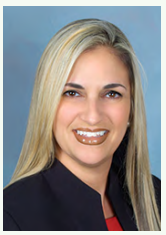

This award reflects more than a collaboration between two organizations; it represents a shared commitment to supporting children and families in our community. The Boys & Girls Club of Huntington Valley has long been a valued partner, providing safe spaces, enrichment opportunities, and extended learning experiences that complement the work happening in our classrooms each day. Together, we are able to support the whole child, academically, socially, and emotionally, both during and beyond the school day. OVSD is proud to offer free childcare for all students in Transitional Kindergarten through sixth grade, and our strong partnership with the Boys & Girls Club plays an essential role in helping us successfully implement and sustain this important initiative.

Strong community partnerships are essential to the success of our school district. When we align resources, expertise, and vision, we expand opportunities for students and create systems of support that help every child thrive. Partnerships like this empower our youngest generation, promote equity, and open doors to experiences that build confidence, leadership, and lifelong skills.

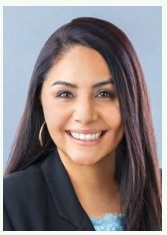

We are proud to stand alongside an organization that shares our deep commitment to kids, opportunity, and community. The Blue Door Award is a meaningful reminder that when schools and community organizations work together, we create stronger pathways for student success and stronger futures for all.

Celebrating Excellence Across Ocean View School District

By Gina Clayton-Tarvin, Board President

One of the most exciting responsibilities I have as Board President of the Ocean View School District is surprising our outstanding staff members with Employee of the Year recognitions. Over the last two months, we have had the privilege of honoring our 2026 District Classified School Employees of the Year. Congratulations to Francesca Baldelli, Administrative Assistant at the District Office; David Serrano, Head Custodian at Lake View; Fidel Jacobo Ayala, Lead Food Service Worker at Hope View; and Buu-Tram Nguyen, Parent Liaison Instructional Assistant at Star View. Each of these individuals exemplifies dedication, professionalism, and heart in their roles, supporting students and families in ways that often go unnoticed but make a tremendous difference.

We are especially proud to share that Mr. Ayala was recently selected as one of just nine Orange County Classified School Employees of the Year. This prestigious recognition not only honors his outstanding dedication and service to students but also reflects the excellence and commitment demonstrated by our entire OVSD team.

In addition, we celebrated our Teachers of the Year: Jennifer Fisler, a Fifth Grade GATE teacher at Circle View, and Dennis Nicolosi, a Music teacher at Mesa View Middle School. Their passion for teaching, creativity in the classroom, and unwavering dedication to students truly represent the excellence we strive for across the Ocean View School District.

Recognizing these exceptional individuals is a reminder that what makes Ocean View so special is our people. It is an honor to celebrate their impact and share their stories with our community.

Rigorous, Relatable, and Relevant

At Circle View Elementary School, learning goes far beyond textbooks. Classrooms are designed to challenge students intellectually while connecting lessons to real-world applications that spark curiosity and creativity. By focusing on instruction that is rigorous, relevant, and relatable, teachers create meaningful learning experiences that help students see how academic concepts apply to everyday life.

A recent fifth-grade lesson brought this approach to life through an exciting exploration of prosthetics and biomedical engineering. Students began by learning how prosthetic devices are used in medicine and in the real world to help both people and animals regain mobility and independence. Through discussions and examples, students discovered how engineers, doctors, and designers work in tandem to create prosthetic limbs that improve quality of life.

After building background knowledge, the classroom transformed into a collaborative engineering lab. Working in teams, students were challenged to design and build their own prosthetic leg. Using materials such as boxes, PVC piping, Velcro, students carefully planned and constructed their designs. The activity required them to apply critical thinking, creativity, and problem-solving skills across disciplines as they considered balance, stability, and movement in their designs.

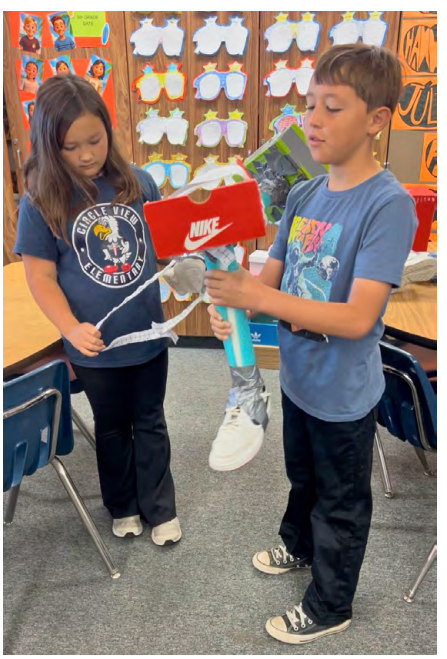

Once their prototypes were complete, the real test began. Students took their prosthetic legs outside to see how well they worked in action. As they attempted to walk using their designs, they quickly realized the complexity behind creating functional prosthetic devices. Some designs required adjustments, while others revealed innovative solutions that surprised their creators.

The testing phase allowed students to evaluate their work and reflect on the engineering process of designing, testing, and improving. More importantly, it helped them develop a deeper appreciation for the challenges faced by engineers and medical professionals who create prosthetic technology.

This hands-on experience exemplifies Circle View's commitment to engaging students in learning that is both challenging and meaningful. By connecting science, engineering, and empathy, students not only strengthened their academic skills but also gained a better understanding of how innovation can improve lives.

At Circle View Elementary, rigorous, relevant, and relatable learning opportunities, empower them to think critically, collaborate creatively, and explore the possibilities of becoming tomorrow's innovators.

Allen Mendrin
Principal

A Day in the Life of a Preschool Student at College View Elementary

College View Elementary School's preschool program provides a nurturing, inclusive environment designed to support the social, emotional, cognitive and physical development of young learners. The program serves both general education preschool classrooms and Special Day Classes, with intentional mainstreaming opportunities that ensure all students are supported and included.

Each school day begins with warm greetings and structured morning routines that help students feel safe and connected. Preschoolers participate in Circle Time, where they sing, move, discuss the calendar and weather, and review daily expectations. This shared time builds a strong sense of belonging while supporting communication and self-regulation skills.

Meals are served family-style, giving students opportunities to practice independence, responsibility and social skills. Outdoor play is a highlight of the day, allowing children to run, climb, explore and engage in imaginative play while developing gross motor skills and positive peer interactions.

Inside the classroom, learning centers and guided play form the core of instruction. Students explore art, building, dramatic play and sensory activities while teachers observe, ask questions and extend learning. Small-group instruction focuses on early literacy, math and motor development and is aligned to the Desired Results Developmental Profile, which supports a whole-child approach to learning.

The day ends with reflection and celebration, as students share favorite moments and accomplishments. Through thoughtful routines and play-based learning, College View's preschool program fosters curiosity, confidence and a strong foundation for future success.

Golden View Elementary Hosts Inspiring Annual Environmental Science Showcase

Golden View Elementary recently welcomed families, friends, and community members to campus for its Annual Environmental Science Showcase, a vibrant celebration of student learning, innovation, and environmental stewardship.

Students proudly presented environmental science projects and creative solutions designed to address real-world challenges and help create a healthier planet for future generations. Throughout the event, guests explored problem-based learning projects in the classrooms the school's farm, engaged with interactive learning stations, and witnessed firsthand the passion and curiosity of Golden View's young environmental leaders. The showcase highlighted Golden View's commitment to hands-on, inquiry-based learning and sustainability education. Visitors had the opportunity to learn alongside students while exploring topics ranging from conservation and agriculture to ocean protection and environmental restoration.

Golden View was also honored to welcome special guests from the Orange County Department of Education, who experienced the unique programs that have earned Golden View recognition as one of only 12 IMPACT schools in Orange County. This distinction reflects the school's dedication to innovative environmental education and strong community partnerships.

A highlight of this year's event was the tremendous growth in community involvement. Golden View doubled the number of participating outreach partners, expanding from seven organizations last year to fourteen this year. These partners hosted engaging learning stations for students and families, including the Ocean Institute, Inside the Outdoors, Orange County Farm Bureau, Pacific Marine Mammal Center, HB Wetlands Conservancy, Environmental Nature Center, Armstrong Garden Centers, the City of Huntington Beach Parks & Recreation Department, Girl Scouts of Orange County, OC 4-H, and several Golden View-led stations such as the school farm , environmental science program, and PTO.

Golden View Elementary extends heartfelt gratitude to all partners, volunteers, and families who helped make the showcase such a meaningful and inspiring celebration of environmental stewardship and student leadership. Together, the community celebrated students who are already working to make a positive difference for our planet.

Principal

Learning, Creativity and Smiles

February brought excitement and hands-on learning to students at Harbour View Elementary School. Our kindergarten classes explored the world of the post office through a creative and engaging classroom project that helped students understand how mail moves from one place to another. Each kindergarten student created their own miniature mail truck to take home. Throughout the month of February, students returned to school with a few Valentine cards each day, placing them in the classroom mail system to share with classmates. This daily exchange quickly became a highlight for students, who eagerly checked the classroom "mail route" to see what had arrived.

The project also introduced students to the many jobs that keep the post office running. Students took turns working in different roles such as selling stamps, canceling stamps, sorting letters, and delivering mail to classmates. Through these playful activities, students practiced teamwork, communication, and responsibility while learning how a real postal system works. The experience made learning both meaningful and memorable.

The fun continued as Harbour View welcomed the first week of March with a joyful celebration of Dr. Seuss's birthday during Read Across America Spirit Week. Students showed their love of reading through creative dress-up days, including crazy socks and dressing as their favorite book characters. One of the week's highlights was outdoor reading time, where students partnered with cross-aged peers and enjoyed stories together on the grass.

To make the celebration even more special, Harbour View welcomed author Alex Lee, who shared her book *Dazzle* with students. She spoke about her writing process and inspired young readers and writers with her story of, "self-love, determination and resilience."

From Valentine mail delivery to celebrating the joy of reading, Harbour View students experienced a February and early March filled with learning, creativity, and smiles.

Literacy Event

Family events are an important part of building a strong school community, and Hope View recently had several wonderful opportunities to bring families together through the joy of reading. Our Literacy Event, tied to Read Across America, was a great success and highlighted the importance of fostering a love of reading both at school and at home.

We began the celebration with Pajama Day and classroom guest readers. Students enjoyed welcoming special visitors into their classrooms to share favorite stories and spend time reading together. It created a cozy and engaging start to a day dedicated to literacy.

Later that evening, many of our families joined us for a special reading event at a local bookstore. Teachers came out to read with students and families, creating a welcoming space where everyone could relax, listen to stories, and enjoy books together. It was wonderful to see our community gathered in one place, sharing laughter and the simple joy of reading.

Just a few days earlier, we also hosted our Reading with Relatives event on campus. Family members joined students in their classrooms to spend time reading together, giving our students another meaningful opportunity to connect with loved ones through books.

Pictured here is Ms. Kuns dressed as a Dr. Seuss character reading a story, Mrs. Zarate, our school librarian, with Tater, our guide dog, surrounded by students, as well as 5th grade students enjoying the storytelling puppets. Mrs. Hanoian is also pictured capturing the details of a story while a few members of the audience listen closely.

These moments remind us that when schools and families come together, we create powerful learning experiences for our students.

Jill Van Der Linden
Principal

Celebrating Read Across America at Our School

This past week, our school proudly celebrated Read Across America, a nationwide event dedicated to promoting the joy and importance of reading. Throughout the week, students and staff participated in a variety of activities designed to inspire a love of books and strengthen our school's literacy culture.

We were especially grateful to welcome several community members who volunteered their time as guest readers in our classrooms. These special visits gave students the opportunity to hear stories from local leaders and role models, while reinforcing the message that reading is important at every stage of life.

Our celebration also included a Parent Engagement Evening focused on literacy. Families joined us on campus to explore fun and practical ways to support reading at home. The evening provided valuable resources, ideas, and activities that parents can use to help their children grow as confident readers.

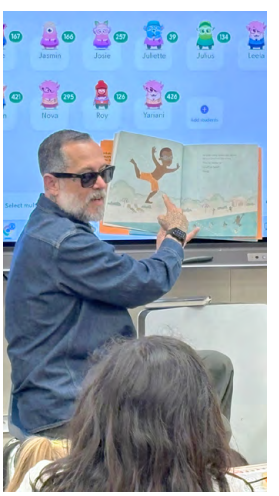

To close out the week, we hosted a Reading on the Green picnic. Families were invited to visit during lunch, enjoy time together outdoors, and share a favorite book with their students. It was wonderful to see so many families gathered on the lawn, reading and connecting.

Thank you to our families, staff, and community members for helping make Read Across America such a meaningful and memorable celebration!

Sara Schaible
Principal

Musical Production

Marine View Middle School continues its tradition of celebrating the performing arts with its bi-annual musical production. This year, students and staff were thrilled to bring *"Alice in Wonderland Jr."* to the stage, delighting audiences with a vibrant and imaginative performance.

The musical tradition at Marine View began in 2015 with the school's production of *"High School Musical Jr."* and has since grown into a beloved community event. Over the years, the school has staged productions including *"Seussical Jr."*, *"Thoroughly Modern Millie Jr."*, *"Guys and Dolls Jr."*, *"Matilda Jr."*, and *"Mary Poppins Jr."*, each one showcasing the creativity and dedication of Marine View students.

The goal of the program is to provide meaningful access to the performing arts for students, the school, and the broader community—an objective that continues to be realized year after year. While a dedicated team of Marine View faculty and staff oversee production, the shows themselves are largely student driven. Students participate not only as performers but also behind the scenes as members of the stage crew, sound and lighting teams, and set designers.

Throughout the weekend, the stage came alive with singing, dancing, laughter, and applause as the cast and crew performed five shows for enthusiastic audiences. Each performance was also highlighted by the talents of Marine View's own Rock Band, which helped set the tone for an unforgettable theatrical experience. Marine View is proud to be one of the few middle schools offering such a comprehensive, student-driven arts experience.

Isis Ortiz
Principal

Mesa View Celebrates Kindness and School Spirit During DUDE. BE NICE. Week

These past few weeks at Mesa View Middle School have been filled with a whole lot of love, fun, and kindness as students and staff came together to celebrate the school's annual DUDE. BE NICE. Week. Hosted by ASB and WEB, this beloved tradition focuses on spreading kindness across campus through spirited activities, meaningful connections, and opportunities for students to build a positive school community.

Throughout the week, students were encouraged to listen to the morning announcements for daily reminders and ideas on how to spread kindness. ASB and WEB also planned a variety of spirit days and special events designed to make every student feel included and celebrated.

The week began on Tuesday with Black and White Day, built around the message, "Kindness never gets old!" Students and staff wore black and white to show that kindness is always in style. On Wednesday, campus spirit continued with Camo Day, reminding everyone, "Don't hide from kindness!" Thursday brought one of the week's most creative themes, as students wore sunglasses to "block out the haters" and stand against negativity. The celebration wrapped up on Friday with Hat Day, when students and staff tipped their hats to kindness by wearing their favorite headwear.

In addition to the daily spirit themes, Mesa View students enjoyed a wide range of activities that helped make the week memorable. Events included: Friendship Grams, a scavenger hunt, kindness challenges, WEB games, lunchtime activities, sidewalk chalk, murals and posters displayed throughout the school, and hearts created for students and staff. The week also featured a Secret Staff Spirit Week, bringing extra fun to campus for teachers and staff members.

Another special highlight of the celebration was Breakfast with Loved Ones. Students had the opportunity to enjoy a meal with the important people in their lives, creating meaningful moments filled with smiles, laughter, and connection. Some teachers also joined in to mingle with families and help celebrate the event, making the morning even more memorable. Thank you to everyone who helped make this event such a wonderful success.

At Mesa View Middle School, kindness starts at the top. Our staff and teachers show students every day what it looks like to lead with patience, respect, and heart. They greet students with smiles, take time to listen, offer encouragement, and model what it means to treat people well — even on the tough days. So when Mesa View says "Dude Be Nice," it is not just a message for students. It is also a celebration of the adults on campus who set the tone and make Mesa View a place where kindness grows.

DUDE. BE NICE. Week continues to be much more than a spirit week at Mesa View. It is a reflection of the school's commitment to kindness, connection, and community. Thanks to the leadership of ASB, WEB, administrators, teachers, and advisors, the event once again brought students and staff together in meaningful ways and reminded everyone that small acts of kindness can have a lasting impact.

Mesa View looks forward to keeping that momentum going throughout the year by continuing to live the DUDE. BE NICE. lifestyle every day.

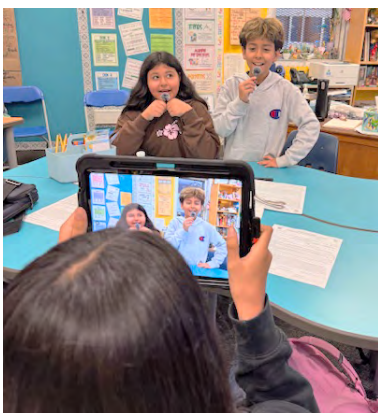

Dr. Araceli Osborn
Principal

Oak View's Owl Influencers: Where Creativity Meets Media

At Oak View Elementary, creativity is taking center stage, and our students are leading the way. Meet the Owl Influencers, an inspiring team of 4th and 5th graders who are using digital media and storytelling to spotlight everything that makes Oak View such a special place.

With support from their teacher advisors, Mrs. Shikuma, Mrs. Salas-Yoshii, Mr. Von, Mrs. Mack, Miss Weiss, and Ms. Schraff, these student creators are doing it all. They are writing scripts, planning segments, filming, editing, and producing videos that celebrate campus events, student achievements, and the everyday moments that make our school community shine.

The Owl Influencers are also expanding their work by creating original podcasts, giving students real-world opportunities to explore digital arts in action. Through audio production, video design, and creative storytelling, they are learning how to communicate clearly, collaborate with a team, and express ideas in ways that are both meaningful and engaging.

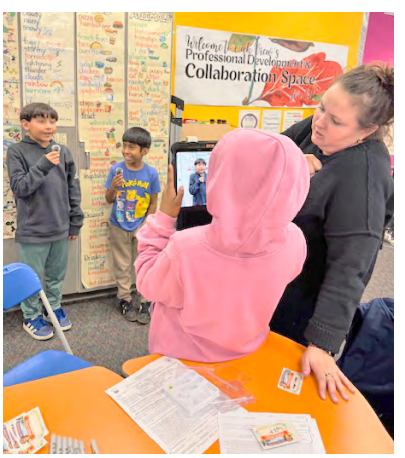

Our Owl Influencers are building connection through creativity, capturing the voice, energy, and heart of Oak View in a fresh, modern way. Be sure to tune in as our Owl Influencers continue to create, share, and inspire. At Oak View Elementary, our students aren't just telling a story, they're designing it.

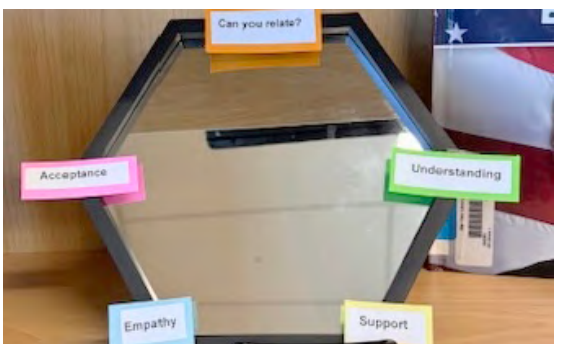

Jeanne Bentley
Principal

Inclusion through the Joy of Reading

At Star View, we are actively growing our practice of equity and inclusion so every student feels welcomed, seen, and engaged in our school community. Our librarian, Mrs. Melwani, not only opens the library as a safe space during lunch but also partners with our School Counselor to offer art activities focused on kindness and inclusion. These creative opportunities help students practice empathy and build a caring school culture.

This month, Mrs. Melwani collaborated with our Parent Teacher Organization to expand the library's collection with books reflecting diverse experiences, cultures, and abilities. Thanks to the PTO's support, students now have access to titles that highlight disability awareness and representation, encouraging them to see the world from multiple perspectives. She will feature these books during weekly library visits, and families will explore them at next month's PTO meeting, held in the library alongside a special book display.

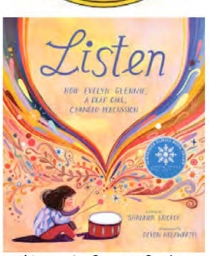

The timing aligns perfectly with the California Young Reader Medal program, which invites students to read and discuss nominated books, including an inspiring biography of Evelyn Glennie, a deaf musician who became the world's first full-time solo percussionist. Stories like hers help students understand that with perseverance and support, we can all overcome barriers.

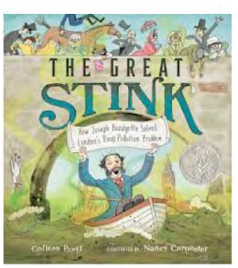

Each time students come to the library, Mrs. Melwani guides them to connect their own lives with the world around them. Through literature, children see that every story matters and every voice deserves to be heard.

Marine Science Expo

Village View, home to Ocean View School District's Marine Science Program, focuses on the Ocean Literacy Principles to help students understand the vital connection between humans and the ocean. Over the past two years, the program has expanded beyond traditional lessons to become embedded in daily classroom learning.

Each morning, students build scientific thinking skills through "Think Like a Scientist" activities that encourage them to analyze questions, reflect on evidence, and justify their ideas. Dolphins of all ages — even transitional kindergarten students — also practice "Speak Like a Scientist," learning academic vocabulary that deepens their understanding of marine science.

Village View recently hosted its inaugural Marine Science Expo, celebrating the school's growing Marine Science Program and the work of its student scientists. Since the start of the school year, students have studied ocean biomes, explored the role of marine biologists, and investigated how pollution impacts the ocean. Guided by Ocean Literacy Principle 6 — that the ocean and humans are inextricably interconnected — students developed projects proposing solutions to pollution in specific ocean environments such as coral reefs and California wetlands.

The free evening event welcomed families and the community to campus to view student projects and participate in hands-on learning activities hosted by local partners. Village View is grateful to the community organizations that provided additional education and support, including CSULB's Shark Lab, Amigos de Bolsa Chica, Huntington Beach's Marine Safety Department, and the State Beach Junior Lifeguards. Guests also enjoyed a marine touch tank, arts and crafts, and a collaborative community art project.

With strong support from Village View's PTO and community partners, the Marine Science Expo highlighted the school's commitment to building scientific literacy, environmental stewardship, and curiosity about the ocean. We cannot wait for next year's Marine Science Expo!

Manny Quezada
Principal

Vista View Middle School Students Shine at 12th Annual OC Pathways Showcase

Vista View Middle School students proudly took part in the 12th Annual OC Pathways Showcase on February 25 at the OC Fairgrounds & Event Center, where innovators from across Orange County gathered to demonstrate how education and industry partnerships prepare them for future careers. The showcase is an annual celebration of student creativity, career exploration, and real-world problem solving through career technical education pathways.

At this year's event, Vista View students presented original prototypes developed to address everyday challenges. One team introduced a unique bookmarker, designed to help readers track multiple pages with ease and style. Another group unveiled a compact, all-in-one hair brush with built-in accessory compartments, offering a convenient solution for organizing hair ties, clips, and essentials on the go. A third team showcased a soil moisture monitoring device aimed at helping gardeners and plant lovers maximize plant health by efficiently tracking soil hydration levels.

Students explained how they used engineering design practices to take their ideas from concept to prototype. They documented research, sketched designs, tested materials, refined models, and communicated their results to judges and community members throughout the showcase. Their presentations highlighted not only the creativity behind each invention but also how persistent problem solving leads to practical innovation.

Parents, educators, business partners, and industry representatives toured the exhibit hall, engaging with young creators and exploring how career pathways support student readiness for both college and career opportunities. Students left the event inspired and empowered, having turned classroom learning into meaningful inventions that reflect real-world problem solving and ingenuity.

Diana Bianco
Principal

Love of Learning Family Engagement Night

Westmont Elementary recently hosted its Love of Learning Family Engagement Night, an evening dedicated to celebrating learning and strengthening the connection between home and school. Families filled the MPR with excitement as students and parents participated in a variety of interactive educational activities focused on ELA and math.

Throughout the evening, students worked side-by-side with their parents to solve math challenges, practice literacy skills, and engage in hands-on learning games designed to reinforce classroom instruction. From word-building activities and reading comprehension tasks to problem-solving games and number challenges, each station offered meaningful opportunities for families to learn together in a fun and supportive environment.

One of the highlights of the night was the opportunity for students to win prizes. As they completed activities, students earned tickets that were entered into raffles for educational materials. The prize drawings added an extra layer of enthusiasm and motivation. The ever-popular estimation game was another exciting feature of the evening, with one family earning bragging rights by guessing the exact number of items in the jar.

More than just games and prizes, the event showcased the school's commitment to fostering a love of learning and empowering families to support their children's academic growth. Teachers and staff were on hand to provide guidance, share strategies, and celebrate student progress.

The Love of Learning Family Engagement Night was a wonderful reminder that when schools and families partner together, students thrive. It was an evening filled with smiles, collaboration, and a shared commitment to learning.
