

Required for TK Registration

Toileting Independence Partnership Questionnaire TK Registration

The teachers and support staff at SSFUSD would like to assist your child with their adjustment to a new school year come August. Please complete the following questionnaire to enable staff to better support your child when school starts.

Student's Name: _____ School: _____

Preferred Language for Communication: _____

A toilet independent child is identified as being able to independently accomplish the following personal tasks:

- Come to school in cloth underwear.
- Communicate restroom needs to school staff before they need to go.
- Gets on/off the toilet independently.
- Can use the toilet independently: pull down clothing, use the toilet, wipe, pull up pants, flush the toilet, wash and dry hands, and clean up after oneself.
- We understand that even toilet independent children will occasionally have accidents. In these instances, students will *independently* change their soiled clothing.

Where is your child currently on their toileting journey?

Please check one of the following.

- | | | | |
|---------------------------------------------|------------------------------------------------------------------------------------------|-------------------------------------------------------|------------------------------------------------|
| <input type="checkbox"/> Toilet Independent | <input type="checkbox"/> Requires some assistance still, but should be independent by TK | <input type="checkbox"/> Requires moderate assistance | <input type="checkbox"/> Needs full assistance |
|---------------------------------------------|------------------------------------------------------------------------------------------|-------------------------------------------------------|------------------------------------------------|

Please explain the assistance your child currently needs:

What to do if your child is not yet fully toilet independent:

- Encourage your child with praise and patience during the learning process.
- Encourage your child to become as independent as possible with all activities of daily living.
- Reading books and talking about becoming independent with toileting.
- Practicing toileting independence at home.
- *Work towards your child being toilet independent before the start of TK.*

SSFUSD strongly urges parents to ensure their child is fully toilet independent ("potty trained") before starting TK. Thank you!
